THE DAIRY-FREE HAPPINESS

Shafi Gluco Chem's specialty Plant-based drink powders, commonly known as Milk Alternatives, are perfect for all Vegan and Lactose-free preparations. These dairy-free drink powders are developed naturally by enzymatic hydrolysis, which converts the complex carbohydrates into simpler chains, resulting in a natural lactose-free drink powder.

At Shafi Gluco Chem, our Drink Powders are made from both Rice and Tapioca, meeting all dietary requirements and fulfilling your consumer needs. With a strong supply chain network that ensures prompt response, shortened lead times, and dependable product quality, we are ready to help you succeed and get to market faster.
