Sadu Trade (LLC) :

Sadu Trade LLC located in Dubai – UAE, specialized in bakery and pastry ingredients
We are a sole agent and distributor for many well-known companies in the field of dairy product and chocolate for Bakery and pastry industries.

Our company generates its experience through well study of them by our research and development department, doing extensive testing for each machine to determine which machine is the best to be provided to our market.

Our customers

La Vache de Paris Ghee (Butter ghee)

PURE COW BUTTERGHEE %99,98 FAT Our Butter-ghee “La Vache de Paris” is made with rigorously selected raw materials. Appreciated for its gustative qualities, this product is suitable both for cooking and pastry-making. The taste of this product is really appreciated by our consumers from Asia and Middle East.

Flécharde was the 1st French industrial company to engage in the manufacturing of Butter-ghee in the late 1950's. Nowadays, we are still the first French exporter of this type of product. Our wide expertise in the concentration of milk fat allows us to develop specific products, such as cow butter-ghee, sheep Butter-ghee and other anhydrous milk fats. Our know-how on these specialties allow us to develop (on demand) products suitable to your requirements.

(Fama& Reddy) Vegetable ghee

Belgium Origin

Fama - Reddy Vegetable Ghee is a product obtained by a special process of crystallization from the highest quality vegetable oils and vegetable fats. It has a distinct yellow color, a homogeneous structure and a taste reminiscent of butter. High nutritional value, rich content of biologically important unsaturated fatty acids, easy digestibility, excellent taste and aroma make it a good food for human health.

Since Vegetable fat is made exclusively from vegetable fats, it does not affect cholesterol production. It is recommended for the preparation of all kinds of meals and cakes, as well as for the diet of people who consume foods exclusively of plant origin. Specific in appearance, taste, smell and color, this product is intended for a special purpose, as a substitute for cow butter.

TATUA

(Tatua-AMF) New Zealand Origin

Anhydrous Milk Fat (AMF) is high quality pure dairy milk fat. It is derived exclusively from fresh New Zealand cream by a mechanical process, that removes almost all of the water and non-fat solids.

Tatua is a globally renowned manufacturer and supplier of Anhydrous Milk Fat (AMF). Strict quality control over our entire supply chain, ensures consistently high-quality, safe products, delivered to our customers, with care.

CREME CHANTILLY

Producer : DMPI

Origin : Belgium

Crème Chantilly is delicious cream which is the perfect topping to use in place of artificial whipped topping on pies, banana splits, cheesecakes, brownies, and trifles.

CREME patissiere

Producer : DMPI

Origin : Belgium

Crème pâtissière, also known as pastry cream, is a thick, rich, creamy custard made by cooking together milk, eggs (or more typically egg yolks), sugar, starch (typically cornstarch) and flavourings

The pastry cream is used as a filling for choux buns, fruit flans, eclairs, etc. without the whipped cream being mixed. It can also form bases of many hot desserts such as 'cobblers' and pies. It is also used in filling breakfast Danish pastries.

Milk chocolate, Dark chocolate, White chocolate
