

## Sustainability and recycling

In a world that depends upon logistics and transport, all shipped in packaging materials, we need to reduce the environmental stress caused by packaging waste.

At Schoeller Allibert, we believe RTP (returnable transit packaging) systems are the answer. We are at the forefront of this revolutionary development.

### Sustainability

We Schoeller Allibert, support the United Nations environment campaign ([www.unep.org](http://www.unep.org)). In Practice: we produce 100% recyclable packaging. We design our products in order to optimize their life span (up to 10 years in industrial conditions). Our production processes contribute to CO2 reduction. Using our products guarantees safe transport of your goods (UN homologation) by road, rail, and air.

### Environment

It is our ambition to design and produce our products with respect for the environment.

Our targets are:

- To reduce our energy consumption per kg of finished product.
- To promote **the use of recycled material**.
- Contributing towards a reduction in CO2 emissions.
- Ensuring certification of all sites to ISO 14001.

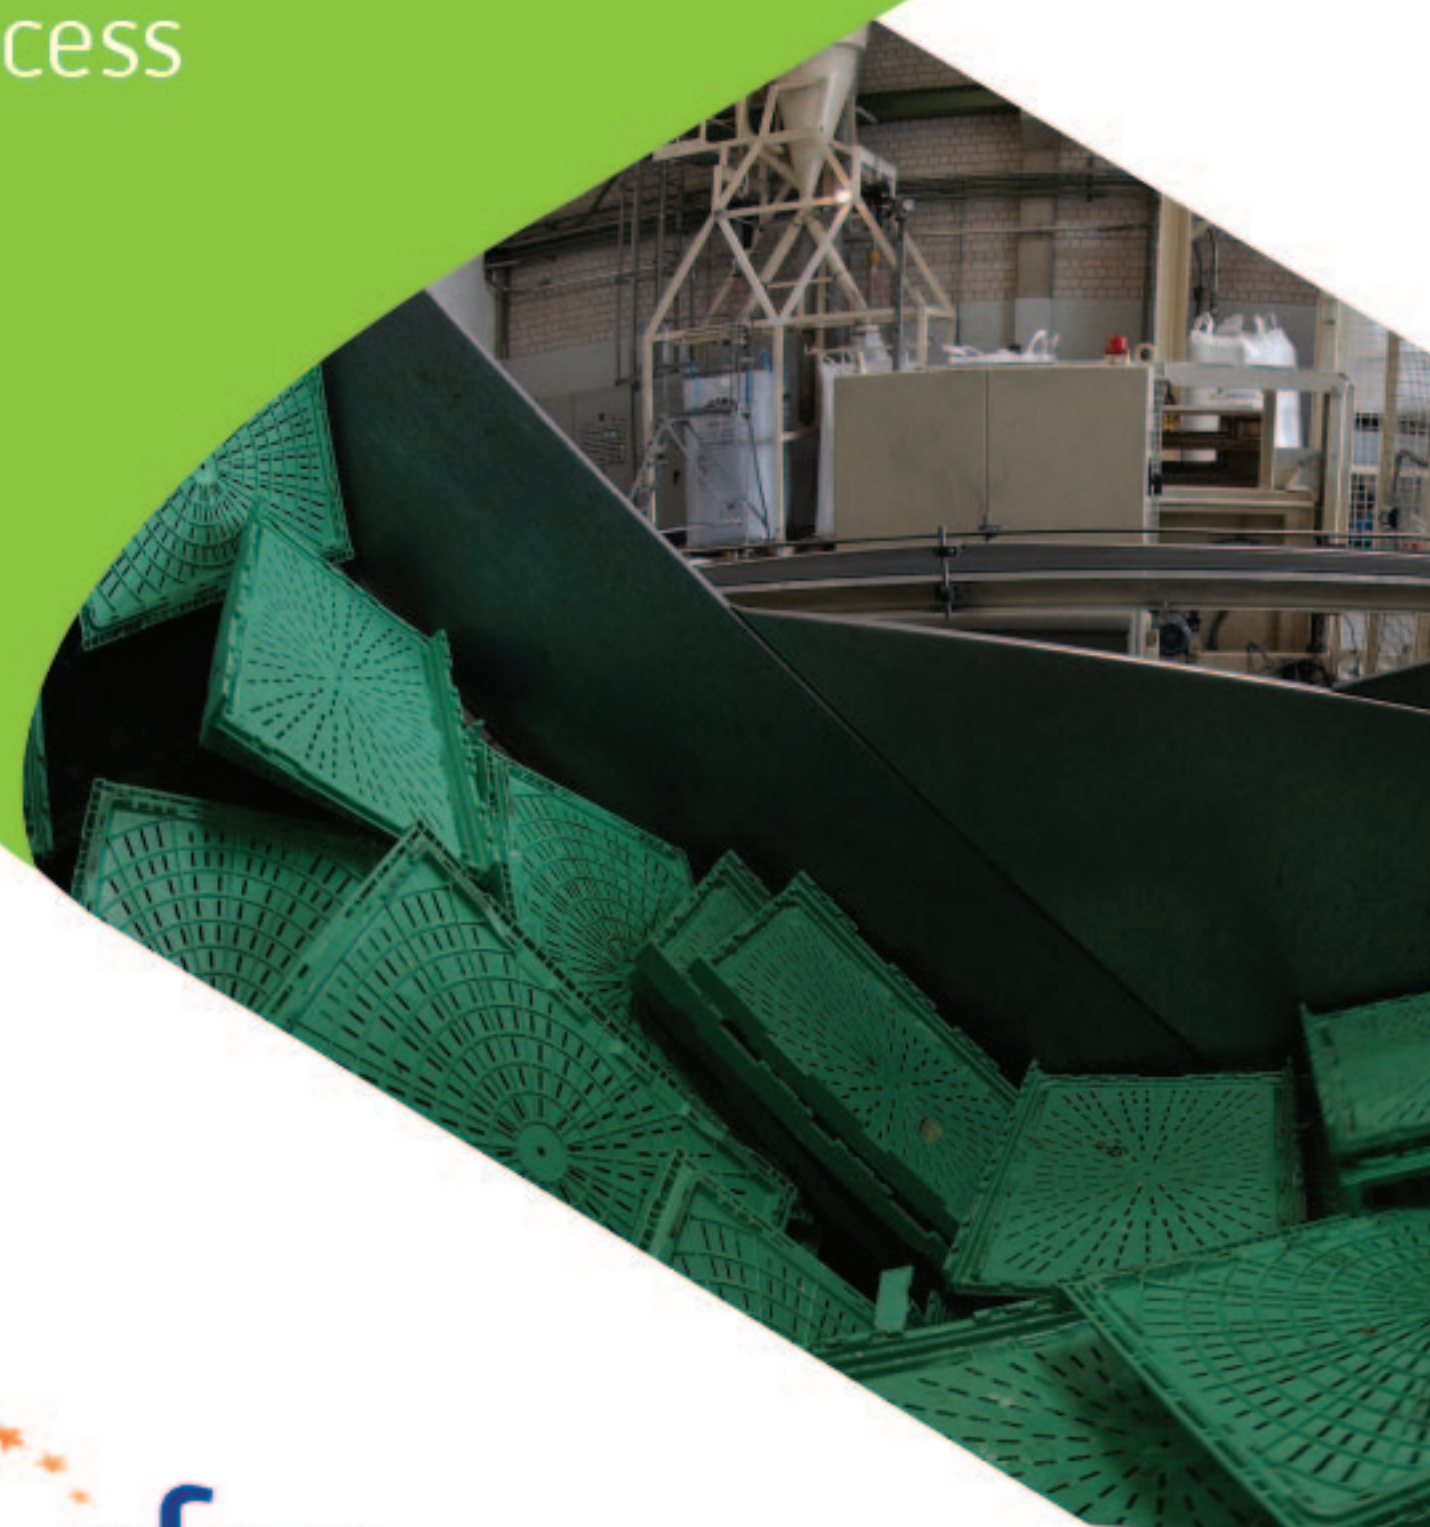

In respect of this and our food safety certifications, our products fully meet the requirements for transport and packaging of organic food.

## EFSA approval granted to Schoeller Allibert for innovative recycling process

Food industries and retail can now have their old returnable transit packaging (RTP) recycled into new high-quality food grade containers, thanks to Schoeller Allibert's European Food Safety Authority (EFSA) accredited recycling process (in four production sites).

The accredited process, which covers the recycling of food-grade HDPE and PP crates into new containers for food contact, has been developed in order to help food processing companies and retailers to meet increasing stringent sustainability targets. No pollution, no waste. We take care of all the necessary steps, creating a 100% sustainable packaging cycle.

## Schoeller Allibert Returnable Plastic Packaging Solutions

**Schoeller Allibert**

Innovating your logistics for a better world

In line with its policy of continuous development, Schoeller Allibert reserves the right to amend product specifications described in this catalogue without prior notice. Most of products are protected by patent, registered design or copyright. Texts, characteristics, pictures and plans are not contractual. Design and production by MAGNA - Creation 2016 | Updated V2-2018-01.

# Innovating your logistics for a better world

As a global market leader in the field of returnable plastic packaging solutions, Schoeller Allibert is committed to reducing our customer's logistics and packaging costs. By using our knowledge and innovative skills, we are dedicated to improving the supply chains of our clients

Our returnable plastic packaging systems are designed to speed handling and distribution operations for a more efficient supply chain. At Schoeller Allibert, we believe in making a difference for you, your business and your personal environment. That's why we say we are Innovating your logistics for a better world.

## 5 Compelling reasons to change from single use cardboard cartons to Multi use plastic crates

## The 6 Market We Serve

### Agriculture

From field to store, sustainable packaging for a demanding supply chain: our bulk boxes, crates and IBC's are strong, long lasting and provide a rapid return on investment.

### Automotive

From Galia and VDA crates to the Magnum Optimum® folding large container we offer the most efficient and cost effective logistics packaging solutions for the global automotive supply chain.

### Retail

Our Retail RTP for food, non food and e retail channels performs numerous delivery cycles over many years and is fully recyclable. Nestable or foldable crates maximize savings and reduce carbon footprint.

### Industrial Manufacturing

We supply a wide range of standard and bespoke RTP products to meet the storage, handling and distribution packaging needs of all industrial manufacturing sectors.

### Food & Food processing

Food processing segments have very diverse packaging needs for each end use. Our products are designed for harsh environmental conditions and ensure long life span. Compatible with automated handling systems they enhance process and logistics efficiencies.

### Beverage

Since 1960 We have been innovating in design and manufacturing of beverage packaging to ensure efficient logistics and to maximize your brand awareness. From IML to soft touch handles we make sure your brand stands out from the crowd.

## The 8 Product Groups we offer

### Foldable Large Containers

From lightweight to heavy duty, available in 3 standard footprints, our foldable large containers have been especially developed for long distances and a large number of return trips, maximizing cost saving and lowering carbon footprint.

### Intermediate Bulk Containers

1. New: Combo Fructus® range with 3 heights designed for the tomato and fruit juice concentrate market.
2. New: Combo Excelsior® ideal for long range intercontinental logistics of all food and non food liquid products.
3. Bisphenol A free material butterfly valve available with 250 and 1000 L liners. Latest EC and French food contact regulations. Reusable IBC with disposable liner and valve prevent contamination.
4. Maximized savings: from 60% up to 73% folding ratio allows 7 stacked columns of folded IBC per truck, drastically reducing reverse logistics costs.
5. Fast and easy handling: thanks to its design, Combo can be set up and handled by one operator only.
6. Tough and long lasting: the double wall structure enables up to 7900 kg stacking load or 4 on 1 piles minimizing storage space. Combo withstands road, rail, and sea freight with up to 1500 kg unit load.

### Foldable Small Containers

Our versatile Foldable Small Containers (FSCs) are used in a wide range of industries and applications, from food retail supply chain to automotive parts distribution. Standard footprints and saving up to 85% space when folded, FSC's are the most profitable and environment friendly reusable logistics packaging solution

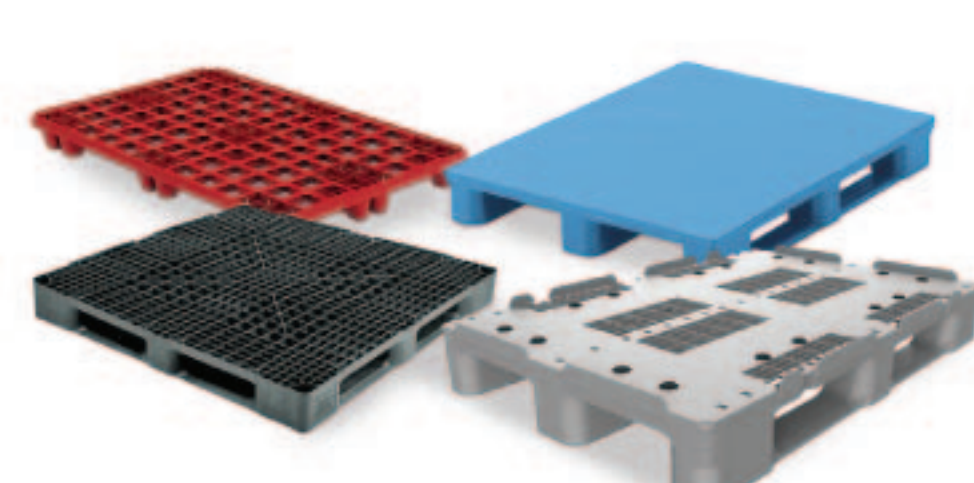

### Rigid Pallet Containers

Hygienic, strong and stable, our Bulk Boxes ranges offer a robust storage and shipping sustainable packaging system. Our Rigid Pallet Containers are ideal for heavy-duty distribution applications and are automation-friendly. They improve space efficiency and optimize truck load.

## The 8 Product Groups we offer

### Plastic Pallets

Schoeller Allibert offers a wide range of plastic pallets. Our pallets are available in 8 standard footprints and 5 different types to meet all logistics requirements: display, light, medium, heavy duty and clean room models. Durability, profitability, hygiene, safety are our pallets' main benefits.

### Stack/Nest Containers

Stack/Nest containers securely stack when loaded and nest when empty to save valuable space on return transport. Ranges include award-winning Maxinvest®, tamper-evident Integra® and Kaiman® ALCs (Attached Lid Containers) and bicolour 180°s for easy visual identification of stack/nest position.

### Dollies

1. Light and strong for effortlessly moving loads up to 250 kg and 500 kg for the Universal Dolly
2. For maneuverability, most models are available with swivel wheels
3. Rim ensures secure stacking of containers

### Beverage

Whether for beer, mineral and healing water, soft drinks, fruit juice or mixed drinks, we certainly have the right beverage solution for your brand.

## Quality policy

### ISO Certified

Schoeller Allibert is proud to be an ISO certified company, most of our sites conforming to:

- ISO 9001: Quality
- ISO 14001: Environment
- ISO 22000: Food Safety
- ISO 50001: Energy

## Quality

Schoeller Allibert strives to continuously improve its products, services and processes. Customer satisfaction is SA's number one priority. Because customers work on an increasingly global basis with SA, we are working with one certified QA system in the USA and EMEA (Europe, Middle East & Africa) group. We are busy implementing this in our Asian sites as well. Schoeller Allibert keeps its customers at the forefront of their markets.

### Our Mission statement is:

Innovating your logistics for a better world. Create a Lean Operational Execution Machine, which delivers high value product to the market on time and in full. We work to a continuous improvement process conforming to the PDCA (Plan-Do-Check-Act) principle.

We regularly check our processes by means of internal, corporate and external Lloyd's audits. We also ask our customers to audit us frequently.
