### About Us

The Gramas Group is one of the leaders in Turkey's dried fruit industry. Founded in 1960s, Gramas began by exporting dried apricots and since then we have been recognized for our quality awareness, from production to post-sales services. In full compliance with contemporary management styles and ethics, we continue to develop environmentally friendly policies for ongoing innovation, progress, and sustainability.

In addition to being a w in the dried fruit industry, we have also invested in construction and mining. Since the year 2001, Gramas has operated a headquarters in California, USA, to manage its growing international ventures. Gramas Group exports dried fruit to 60 countries, including the United States and Russia, as well as countries in the European Union and Asia.

Gramas' production infrastructure is privileged with modern machinery and equipment developed with cutting-edge technology. Our facilities ensure the highest standards of health and hygiene, as they are operated by a highly qualified staff. Our produce is supplied from ambitious and meticulous farmers, most of who have been in the field for generations. After a careful selection process, all the produce are tested and examined in accordance with quality standards. Our high-tech packaging systems are designed to maintain freshness for a long time.

We at the Gramas Group are proud to see our products consumed in good trust and taste. We are indebted to each and every member of our group for their hard work and generous efforts to make Gramas what it is now.

## World of Gramas

Gramas operates mainly in the United States, China, and Brazil, under three different dried fruit brands: Pasha for China, Fruits&Sun for Brazil, and Sun Tasty for the American organic food market.

Our motto in all of our business is to, "offer fresh, healthy, delicious, and reliable products in their most natural state." Thankfully, this yields a wide range of food options, appropriate for all age groups.

O R G A N I C

## Sun Tasty

Simply Sun-Dried Organic Whole Fruit

It is with pride that our family is able to offer the taste of ripe fruit from our organic farms. We say "No" to any added flavors, but "Yes" to a love of nature's delicious offerings. This simple mantra is our pure approach to harvesting the best tasting food, and is how we conscientiously and respectfully develop our products at Sun Tasty.

## Fruits & Sun

We are grateful to our attentive growers and our workforce for their great passion. Using traditional agricultural means, they handpick all Fruits & Sun products, ensuring our high standards are met.

With the help of modern technology, Fruits & Sun is one of the leading agricultural manufacturers in the world, producing fresh, healthy, and natural sun-dried whole fruits. Our goal is to preserve the genuine flavors of nature's pure feast.

## DRIED APRICOT

With the help of the most suitable climate conditions in the world Turkey produces 70% of the world's dried apricot export. Therefore dried apricot from Turkey is a well known commodity and a symbol of quality. Dried apricots is a product of nature, containing many of the major vitamins and minerals essential and beneficial to human body. GRAMAS supplies many different varieties of dried apricots: Organic, unsulphured ( sun- dired ), and diced.
