Plastic packaging industry, that we introduced in early 2000's, gave a new breath to us together with the metal packaging experience coming from the past. Since those days, we have been producing triangular, square, round and cylindrical packaging products, changing from 200ml to 20000ml.

We continue to make investments with our new facility in Konya 3rd Organized Industrial Site. With our strong staff and professional team, we are the main plastic packaging supplier of many industries, such as milk, cheese, cream, date, jam, chocolate, candy, ice cream, jelly, sweet, tomato paste, cosmetic, paint, chemical industries.
