

CAFFÈ L'ANTICO

1909

THE COFFEE
COMPANY
WITH OVER
A CENTURY OF
EXPERIENCE

Industry 4.0

Caffè L'Antico produces and distributes its own high quality coffee blends to over 45 countries around the world. 2015 a second roasting company, the Indian branch Seven Beans coffee company, in partnership with the Shetty family, owner of endless coffee plantations in Bangalore, was inaugurated. With over 1000 tons of **only high quality coffees** roasted per year, Caffè L'Antico is in the market with a wide range of products targeted at both the Ho.Re.Ca and the large-scale retail distribution channels. The green coffees directly imported from the countries of origin have been carefully selected during more than 110 years of activity, since 1909, and roasted in a slow traditional way of 18 minutes, to achieve today's high quality blends. Our company's home, Montecuccoli degli Erri castle, core of our company and brand as well, is one of the most important historical residence of Modena's province, build in 1490, home of the Count Raimondo Montecuccoli degli Erri and belonging to our family since 18th century. This is the place where our partners come closer to the experience we offer, an experience not only of tastes but of different countless shades.

We have been coffee roasters for four generations.

Working with coffee is an art and to taste it is an experience. It's not technology that makes our coffee excellent, but the love we put during the production and roasting process. To the five senses that make a roaster a great master, we add the sixth one: heart.
