Located in Vancouver BC, Canada, Inno Foods is a dynamic and innovative food company with widespread recognition for its commitment to producing high-quality, healthy, and delicious snacks.

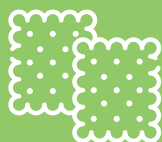

Since 1982, Inno Foods has quickly established itself as a leading player in the food industry, known for its unique and innovative products. After years of perfecting our innovative snacks, the Inno Foods Coconut Clusters were born. We are delighted to share that our continuous dedication and efforts have yielded remarkable results.

The success of Inno Foods has led us into club and retail stores such as Costco, Walmart, Sam's Club, and ALDI in North America. The fast-growing market demand for health-conscious food choices has driven our decision to expand our presence in Asia, Europe, and Middle Eastern countries.
