

# PERFITHERM®

SELF CLEANABLE SKID

**PERFIPROCESS®**

by PERFINOX | [www.perfinox.pt](http://www.perfinox.pt)

# PERFITHERM<sup>®</sup>

## THERMAL PROCESSOR

### FEATURES

**Rapid inline heating or cooling**  
Wide variety of products

**Large surface area**  
From 0.5 to 7 m<sup>2</sup> of surface area

**Only one mechanical drive and seal**

**Slow rotation and large product path**  
Eliminate damage on particulates such as whole fruit and soft vegetables

**Easy seal and scraper inspection**  
Without the need for disassembly

**Ideal for aseptic installations**

Not every food company has automatic processes, especially the cleaning.

To help increase the production and grow the business, PERFINOX develops self-cleanable Scraped Surface Heat Exchangers, a skid assembled solution for inline heating and/or cooling. Now, producers can use the PERFITHERM technology even if they haven't got a CIP station, keeping their process simple and high quality, but faster and more profitable.

The 'ready to work' skid assembled system is composed of a PERFITHERM Scraped Surface Heat Exchanger, a positive displacement pump for gentle product handling and a cleaning setup with automatic detergent dosing, CIP preparation and launching tank and CIP pump.

## SMART SOLUTIONS for ALL PROCESSES
