

Natural source of energy.

About ————— US

JANNIS S.A. was founded in **1965**, in **Thessaloniki**. Our company was one of the **first large scale producers of Sesame bars in Greece**. Jannis products were made in cauldrons by craftsmen with absolute care, as they embedded tradition in the manufacturing process.

Sesame bar, or **pasteli** as it is known in Greece, is a traditional Greek confection with documented origins in antiquity. Homer and Herodotus spoke of the snack in the Iliad and other scripts since the 8th and 5th centuries BC. Throughout the ages, our beloved sesame bar continues to be not only a sweet

snack, but also a **natural source of energy**, due to the high-nutritional value of its two key ingredients: sesame and honey.

Since then, our company has grown its product range to meet our customers' changing tastes and lifestyles. We offer a **wide range of Sesame bars, Nut bars, Nougat bars, Greek style delights, and Coconut sticks**. With our clientele growing internationally, we adjusted to the international market dynamics and created **certified biological (organic) choices**.

Throughout all these years, the company has evolved by investing

in technology and creating **state of the art manufacturing facilities**. Yet, Jannis still values the expertise of its personnel and highly invests in it. The secret behind our success remains the **product quality for the well-being of our customers**. We employ the best practice quality control measures, throughout the whole process, to ensure that our products are of the **highest standards**.

With more than **half a century** of dynamic and steadily growing presence, **Jannis** is the **market leader** in Greek traditional confectionery and our products are enjoyed by customers around the world. Jannis products are **much more than energy bars**, gluten free choices or options suitable for vegetarians. We use the **finest ingredients** that make a natural and healthy snack, yet they leave a delicious flavor in the mouth!

Our products are offered in a variety of packaging and they are ideal for snacking on the go. They are an excellent choice in **retail, hotels, coffee shops, vending machines, delicatessen shops, schools, airports and much more**.

Tasty as... health!

Want to fill your day with energy and feel the benefits of a real super food? Try our sesame bars and everyday snacking will never be the same again! Sesame seeds are a real health bomb, containing plant-based proteins of high biological value, while also being a rich source of amino acids. And on top of it all, sesame tastes really good! No wonder everyone loves Jannis Sesame Bars for what they are, irresistibly yummy and unbelievably healthy!

Nut an ordinary snack!

We all know that nuts are the kind of food that we just can't do without, if we are after a well-balanced diet. These Nut bars are really awesome in terms of flavor and nutritional value, while they are available in a wide variety to choose from! Peanuts, rich in protein and biotin. Delicious almonds, that have long been considered the secret of well-being and health. Hazelnuts, a very good source of soluble fiber and manganese with high content of calcium and B-complex vitamins. Pecans, rich in antioxidant polyphenols. Altogether they make Jannis nut bars what they really are, a real treat for the taste buds and the human body just as well.

The image shows a single Jannis Almond Bar wrapper. The top part is white with a purple and gold logo that says "Jannis SINCE 1983". Below the logo, it says "Almond Bar" in a cursive font. There is a clear window showing the almond bar inside. Below the window, it says "Παστέλι αμυγδαλέ" and "40g e (1,41oz)". The bottom part of the wrapper features a blue and white geometric pattern.

Hard to resist!

There is something really special in the way a soft nougat melts in the mouth! Its velvety, chewy texture, along with the intense flavours of nuts and fruits, make it really hard to resist. Almonds and peanuts are the core ingredients, making a nutritious statement in each bite! And then, there are also the juicy parts of the dried fruits; cranberries, a rich source of antioxidants, apple, again extremely rich in antioxidants, flavonoids and fiber, strawberry and orange purees, containing a significant amount of calcium. What's not to love in this amazing, energy-packed snack?
