

The right address for plastic caps and closures

Has Plastik A.S. is one of the leader companies as caps & closures supplier for water, drinks and juices with more than 43-year experiences in east Europe.

Has Plastik A.S. gives you choices with a broad spectrum or attractively priced caps for drinks, juices and water due to surplus capacity.

Has Plastik A.S. uses the highest technology to find the most economic cap solutions for the customer needs and exports more than 77 countries worldwide.

Has Plastik A.S. was founded in 1980 to carry out activities in the plastic packaging sector with high production quality principle.

By considering the rapid development and increasing competition in the plastic packaging sector, our investment to advanced technology and people continues increasingly.

Has Plastik A.S. manufactures its products in two integrated factories, located in Avcılar-Istanbul, in line with Quality Management Principles comply with ISO:9001, ISO:45001, ISO:14001, BRC IOP and Halal Product Management standards.

The production is performed with the most advanced technology under hygienic conditions.

Has Plastik A.S. proved that it is a reliable manufacturer to supply of plastic packaging materials with its export to more than 77 countries.

Has Plastik A.S. will produce the food product packages in line with the legal legislations and meets customer expectations considering food safety.

In order to ensure food safety, our company defined the hazards to prevent such events in the process starting acceptance of raw material until its shipment.

In our production, we use raw material complying with food safety and we ensure highest hygiene conditions.

In customer relations, the same level of importance is attached to service quality as product quality.

It is essential for our company to gain profit from its activities in order to continue its existence in the sector. However, ensuring customer loyalty will always be the priorities.

QUALITY POLICY

Has Plastik A.S. is aware that the most valuable asset is our customer satisfaction therefore our operations and working principles relies on fulfilling our customers' expectations. It is a key element of our business strategy. In a competitive marketplace we recognize customer satisfaction as a key differentiator.

Not only the product quality but also the service quality is provided by our high level of experienced professionals.

It is essential for our company to gain profit from its activities in order to continue its existence. However, ensuring customer loyalty will always be the priorities.

We give great importance to work safety thus we minimize accident risk by following the legal legislations.

In order to ensure food safety, our company will take the precautions required to prevent events defined as hazardous in the process starting acceptance of raw material untill its shipment.

Continuously tracking and improving all the above mentioned principles are our company philosophy and we are committed to follow these disciplines by all times.
