

You've never tasted a cookie like this!

Dreamed in Brazil. Shared With the World.

Our name represents our origins in 2005, when our founder dreamed up a recipe for a candy based on coconut and condensed milk. Upon waking up, he prepared the recipe in the kitchen of his house and the result was delicious and unlike anything he had tasted.

Over the years, homemade production gave way to a factory, new flavors were developed, but the artisanal essence and love are still present in each baked "cocada".

Our high-quality standard – from the choice of raw materials, to production and distribution control – is reflected in the final product.

We are proud to offer delicious flavors, superior quality and packaging that stand out at the point of purchase.

We Love Coconut!

TOP 5 BENEFITS

1. Source of good fat

Coconut fat is composed of fatty acids that are very important for health. Combined with a healthy diet, it helps protect the heart and has anti-inflammatory action. In addition, it helps to maintain proper body weight.

2. Rich in fiber

Dietary fiber is very important for the body. They are the ones that regulate the functioning of the intestine, improve the bacterial flora and reduce the absorption of fats and sugars. Coconut pulp is very rich in this nutrient that is so necessary for the body.

3. Gives satiety

Due to the presence of fats and fibers, coconut gives a greater feeling of satiety and for longer.

4. Contains antioxidants

Coconut is rich in flavonoids, which are antioxidants responsible for fighting free radicals that oxidize cells, causing premature aging and other health problems. In this way, the flavonoids present in coconut are great allies in maintaining a healthier body.

Coconut is a tasty and very healthy food. And it is present in all our products.

5. Helps maintain healthy teeth and bones

Regular consumption of coconut helps to improve the health of bones and teeth, as it increases the body's ability to absorb minerals such as calcium and manganese, which are essential nutrients for healthy teeth and bones.

Find out why Dreams Coconut Cookie is different from all the cookies you know

Dream Coconut Cookie is **flourless**. Seriously, no flour at all.

Dream Coconut Cookie is gluten-free.

Dream Coconut Cookie is **crispy**, **soft** and absolutely **delicious**.
