ABOUT US

Sharmeen Group ventured into dates industry in 1988. With humble beginning and dedication we have come a long way and achieved international standards such as BRC, ISO and HACCP certifications for our processing plant where we have installed dedicated dates processing and packaging lines and state-of-the-art date paste production lines.

Our dates are selectively picked from both, traditional as well as organic certified farms and processed in our facility, delivering highest quality standards.

Since inception our mission is to become a dates company with a well diversified dates concentrated product portfolio and establish a processing factory which can be counted as a benchmark of Pakistani dates industry.

Continuing our vision of growth we have commissioned state of the art automatic Dates Paste line which we have procured from renowned European manufactures in order to ensure highest quality parameter for the final product.

At Sharmeen Foods we consider to have the competitive advantage of processing our product range entirely in house without dependency on the outsources process such as washing and pitting along with purpose built warehouse with large storage capacity (dry and cold) in order to ensure round the year supplies with stable quality.

QA Policy

1. Good Food Safety Practices:

Food safety is of paramount importance to our company. We are committed to producing and delivering products that meet the highest standards of safety and quality.

2. Product Information:

Detailed information about our products, including ingredients, nutritional content, and packaging details, can be found on our website under the "Products" section..

3. Allergen Information:

Allergen information is clearly listed on our product packaging. If you require further assistance, don't hesitate to reach out to our customer service team.

4. Accountability:

Accountability is a cornerstone of our company's values and operations. We believe in taking ownership of our actions, decisions, and outcomes. Here's how we ensure accountability throughout our organization.

5. Transparency:

Transparency is a core principle that guides our company's actions, interactions, and relationships. We believe that open and honest communication is essential for building trust and fostering meaningful connections. Here's how we prioritize transparency in our operations.
