#### VISION

Taking a path less travelled. I expanded Milkyz food and founded a sister company named Bake House a baking specialist have more than 4000 articles a highly sensitive business that requires a high amount of technical know how, expertise and specialized knowledge.

Overcoming challenge after challenge with the support of my brilliant team. I have been successful in bringing Milkyz Food to a new milestone of National recognition and new products on my portfolio:

The journey of Milkyz Food is never-ending. But with the support of my team and clients, I am confident that the company will continue to scale milestones of excellence for years to come.

Progress for me has never been a dream. It has always been a distant reality and once one milestone is achieved, there is always another one waiting to be crossed. It is with this belief that I started Milkyz Food in 2011, a company that was in the business of Vegitable Whipped Cream. Almost instantly, Milkyz Food became a prominent name in its business segment, but as every entrepreneur sticks to their dream, I always wanted to push my company to more prosperous milestones. More than being a National player, I always perceived my company as a unit that could make a difference with its quality and competitively priced products.
