BREMOR

Who we are

BREMOR is business that started its history with the herring production more than 20 years ago. Today the company is a multi-category producer of food products – from fish and seafood to ice-cream, semi-finished dough products and salads. The factory produces more than 1000 different products in 12 categories.

Our advantages

Innovative approach is one of the BREMOR's key advantages. Possessing proprietary know-how technologies, we successfully launch new products and open new product categories. Due to our unique formulas based on deep studies of raw materials BREMOR produces food items that are in great demand among consumers.

What we produce

We produce more than 1000 food items in the following categories:

Herring

Salmon

Seafood

Surimi products

Caviar

Spreads

Canned fish

Seaweeds products

Salads
