ABOUT US

AgriVerdi was established in 2019 to cater sesame added value products to processors and traders in bulk. With time honored relationships with farmers and clients alike, we wanted to hold together this strength by increasing our trade with farmers, and participate in supporting our clients with added value products to feed their growth.

International demand is also constantly increasing for high quality, and cost effective supply chains. AgriVerdi focuses on longterm relationships and partnerships with clients that will create sustainability and growth for all.

With no expenses spared on our infrastructure, machinery, and esteemed team we aim to cater demanding markets and expand our product list accordingly.

OUR MISSION

We seek to offer our clients products of high standard of consistent quality, integrity, and rewarding long term relationships. Continuously implementing state of the art technologies to cater our products to the most demanding markets a superior product at a competitive price.

OUR VISION

Continuously strengthen our heritage in sesame seeds and its added value products. Providing our customers and partners with a one stop hub for quality finished goods. Allowing them to focus on their distribution while we focus on the manufacturing.

CORE VALUES

- Quality Policy
- Relationship Building
- Customer focusing
- Commitment

QUALITY ASSURANCE

“Sesame from the roots” is our heritage.

Our growth is intertwined with our vision of quality. As our experience and market knowledge grows, our emphasis on quality is reinforced to achieve leadership and competitive strength in our products.
