premium **“Hom Thai”** Rice undergoes fine selection and is stored in suitable moisture and temperature control silo in order to maintain its finest shape, whiteness, softness, natural fragrance, and taste from the best rice-growing areas in Thailand

## cultivate, select, and take meticulous care

at every stage of the production process before delivering the high-quality products to your hands

The story of Grandpa Beans begins with the cherished seed that is carefully handled to be the best sprout. The seed has been nurtured, watered, and cultivated with love until it grows into a full-blown range and that makes our beans and other products exceptional from others.
