

Press Release

Equip.me Opening Ceremony in the Jebel Ali Freezone.

Equip.me is a global enterprise opening a new branch in the UAE. The company occupies a niche as a distributor of equipment for professional kitchens and shops; it supplies HoReCa equipment to professional dealers with a short lead time from its regional warehouses at a wholesale price. The Equip.me distribution model has facilitated the reduction of the lengthy process of opening restaurants or replacing equipment in commercial kitchens in many countries, making its equipment available to a large number of professional suppliers.

Geographically, the Middle East is remote from the main equipment manufacturers in Europe, China, and the USA, and large warehouse stocks in the free zone of Jebel Ali will allow us to reduce this distance and delivery times. Equip.me offers its dealers equipment from well-known European and Chinese factories within its trademarks as well as manufacturer brands.

The opening of the company's showroom and warehouse will take place on April 24th, 25th & 26th in the Jebel Ali Free Zone at the address: S3A2SR08, Jebel Ali Freezone Dubai, UAE. Equip.me is inviting professional equipment suppliers and everyone interested in professional kitchen equipment to attend the event.

The Equip.me company profile & other valuable information can be found on the Equip.me Middle East page on LinkedIn and the Equip.me distribution portal. You can confirm your participation and the date you wish to attend the opening event by emailing salesme@equip.me or by calling/Whatsapp at +971 551 503 426. The agenda includes showcases, presentations and networking. Please come and discover new business opportunities with us.

Kind regards,

The Equip.me team.
