

HEAVY-DUTY ACTION DRONES – ABZ Innovation

ABZ Innovation specializes in developing and manufacturing heavy-duty action drones for various sectors. Our drones, built with European R&D and manufacturing standards, offer efficient, customizable solutions for tasks like spraying, fertilizing, monitoring, and cleaning.

ABZ Innovation supports distribution partners with sales materials, service expertise, and joint campaigns, and is present in over 20 countries. We are currently expanding our international network and negotiating new partnerships in Europe and worldwide. We are dedicated to providing fast, efficient, and precise drone solutions that surpass traditional machinery, tailored to customer needs while emphasizing privacy, sustainability, and comprehensive support, including parts replacement.

ABZ Innovation received the "Hungarian Agricultural Product of the Year 2024" award for our L30 agricultural spraying drone, recognizing our technological innovation. Through continuous innovation and support, ABZ Innovation is transforming industries globally with drone technology.
