

## **Shenzhen iTeaQ Power Co., Ltd. Showcases Cutting-Edge UPS Solutions at the 139th Canton Fair**

Shenzhen iTeaQ Power Co., Ltd., a leading provider of reliable power solutions, proudly participated in the **139th Spring Canton Fair**, showcasing its innovative **Uninterruptible Power Supply (UPS)** systems. The event, held from April 15-19, 2024, provided an excellent platform for the company to connect with global buyers and highlight its commitment to quality and technological advancement.

Specializing in **UPS products**, iTeaQ Power demonstrated a range of high-efficiency solutions designed for data centers, industrial applications, and critical infrastructure. Visitors explored the company's latest offerings, including **modular UPS systems, lithium-ion battery backups, and smart energy management solutions**, all engineered for superior performance and sustainability.

"We are thrilled to engage with international partners at the Canton Fair," said by our Deputy General Manager of Sales Department of iTeaQ Power. "Our mission is to deliver **stable, eco-friendly power solutions** tailored to diverse market needs, and this event reinforces our global footprint."

With a strong reputation for **R&D excellence** and customer-centric service, Shenzhen iTeaQ Power continues to expand its presence across Asia, Europe, and beyond. The Canton Fair served as a pivotal opportunity to strengthen existing relationships and forge new collaborations.
