

Redian Software to Showcase Cutting-Edge Digital Finance & AI Solutions at GITEX Dubai 2025

Dubai, UAE – 11 Sep 2025 – Redian Software, a global leader in enterprise IT solutions and digital transformation, is set to present its latest **AI-driven, digital finance, and enterprise technology platforms** at **GITEX Dubai 2025**, one of the world’s premier technology and innovation events.

At GITEX, Redian Software will unveil innovations designed to empower **banks, insurers, enterprises, and governments** across Africa, the Middle East, and beyond.

Key solutions being highlighted include:

- **BETH GEN AI Solution** – An **LLM-based Conversational AI Platform** enabling enterprises to deploy intelligent chatbots and virtual assistants for enhanced customer engagement.
- **RedFIN – Core Banking System** – A robust digital finance solution for banks seeking secure, scalable, and future-ready **core banking infrastructure**.
- **Insurance – Intelligent Policy Administration System (IPAL)** – A comprehensive digital insurance solution for policy lifecycle automation, regulatory compliance, and seamless customer experience.
- **ABACUS – ML-Powered Pricing & Rating Suite** – An InsurTech innovation that uses machine learning to optimize **insurance product pricing and risk rating**.
- **Digital Wallet** – A secure **e-wallet platform** enabling financial institutions to provide fast, compliant, and frictionless digital payment services.
- **Loan Management & Loan Origination System** – A **digital lending solution** designed to streamline origination, credit scoring, disbursement, and repayment tracking.
- **HRMS & Asset Management System** – A smart enterprise solution for **human capital management, payroll, and asset tracking**.
- **Document Management System** – A secure, cloud-ready platform for **document control, collaboration, and compliance management**.
- **BudgetIQ – Budget Management & Tracking** – A financial planning solution that helps organizations **set, monitor, and optimize budgets with real-time insights**.
- **Zoho Advanced Partner Services** – Expertise in **Zoho CRM and enterprise software implementations**, driving customer engagement and sales transformation.

“GITEX Dubai is the perfect platform for us to showcase how Redian Software is shaping the future of digital finance, insurance, AI, and enterprise solutions,” said **Pavan, CEO of Redian Software**. “We are committed to helping organizations accelerate digital transformation with intelligent, secure, and scalable platforms.”

With a strong presence in **India, Africa, the Middle East, and the US**, Redian Software continues to be a trusted partner in **digital finance, InsurTech, AI-driven enterprise platforms, and CRM solutions**.
