

Pagino

Unique Emails Built Around Your Vision

Pagino is the first AI-powered tool that acts like a full email team, creating stunning, responsive templates and content in seconds.

No coding, no rigid editors: just describe your idea in plain language, and Pagino instantly generates a professional email perfectly aligned with your brand.

- ✓ Transform ideas into complete emails automatically.
- ✓ Generate copy, visuals, layout, and code with AI.
- ✓ Apply your logo, colors, fonts, and style guidelines effortlessly.
- ✓ Work securely from the cloud, anywhere.

With Pagino, you stop struggling with complex editors or repetitive templates.

AI delivers unique, ready-to-send emails that look professional, perform brilliantly, and feel truly yours every time.

How It Works

Pagino turns your ideas into professional, ready-to-send emails in three easy steps:

1

Describe your email in plain language.

2

AI instantly generates a responsive, polished design.

3

Refine or reshape every element with simple requests.

Turn any idea into a professional email quickly, efficiently, and fully on brand with Pagino.

All the Skills You Need for Professional Emails

With Pagino, you don't pick a template. AI turns your ideas, brand assets, and style into a fully unique, professional email.

Turn Your Ideas into Complete Emails

Type your idea and Pagino creates the full email automatically. Copy, visuals, layout, and code are crafted instantly, ready to send.

Fully Branded Emails

Automatically apply your logo, fonts, colors, and style guidelines to ensure every email matches your brand perfectly.

Optimized Code and Deliverability

Pagino generates clean, responsive HTML compatible with all major email clients, ensuring flawless rendering and maximum inbox delivery.

Unlimited Edits with Natural Language

Write instructions in natural language and refine every detail of your email. Make unlimited edits to achieve exactly the result you envision.

AI Handles the Details You Can't See

Pagino works like a full professional team behind the scenes, polishing copy, refining visuals, optimizing UX, and handling translations to make every email exceptional.

Cloud-Based, Ready Anywhere

Access Pagino securely from any device. All emails are created, stored, and managed in the cloud, no software installation or technical skills required.

Write your idea in simple language.

Pagino AI generates the full email: copy, design, layout and code.
