

# AKKENT TINBOX CORPORATE GIFTS CATALOGUE

In partnership with **Tinbox** for  
your cooperate solutions.

[info@akkentlokum.com](mailto:info@akkentlokum.com)

Our story, which began 165 years ago with halva production, continues today with the 4th generation, maintaining the same quality and traditional standards. Production takes place at our Afyonkarahisar-based facility, under our Istanbul Ottoman 1860 brand and our Oman franchise.

We use 100% beet sugar in our production—free from additives and preservatives. Nuts sourced locally and seasonally are added, and the products are flavored with natural colorings and aromas.

Since 2019, in partnership with Tinbox and Tinbox Decorative, we have been offering corporate solutions to our customers both domestically and internationally with specially produced metal packaging.

---

We offer metal boxes in 3 different size options for your corporate gifting needs. While the varieties of Turkish delight inside the metal boxes are standard, they can be customized according to your preferences in terms of delight types and nut ratios. For customized products, any price changes will be communicated following production approval.

To ensure safe delivery of the products, orders are accepted by box quantities. Our products are packed with separators, using either shrink film or hot vacuum film, and shipped in suitable outer cartons.

# SMALL-SIZE RECTANGLE TINBOX
