**OUR STORY...** 

DETKI 1983

We "invented" the Household biscuit powder.

1994

Material Keksz

Raddi Ind. put

1999

We have established a new Italian biscuit production line.

Our biscuits production capacity has doubled.

2012

The first coated premium Detki products appeared on the store shelves.

We have started the robotization of the iconic Mese honey linzer biscuit packaging.

2024

The plant of Detki

Keksz Ltd. was built in Halmajugra next to

the former birthplace

of the famous "farmer

Bálint".

The pruduction of the Mese honey linzer has begun.

1985

1997

We have obtained ISO certification.

2008

Our biscuits have won the honorary title of Excellent Hungarian Food Award several times.

Our packaging has dressed up in new and spectacular purple color and we have started the salty portfolio.

2015

We have developed the Detki
Educational smart game programme
and started developing our Detki
Vital portfolio with a dietetic.

2025

In this year we will put the Detki wafers production lines into operation and we will enter a new category in the market.
