VIDEO ON VEGETABLE OILS

**THE PLANT**  
**«TYUMEN**  
**AEROSOLS»**

Aerosol packaging solved the problem of extending the life of the oil to 2 years instead of 4 months (in conventional packaging)

The most popular ones are: ginger oil, rapeseed oil, high oleic sunflower oil, safflower oil, hemp oil, poppy oil, mustard oil, etc.

### ADVANTAGE OF PACKAGING

## BOV bag and valve

- no contact with air

- 1 the vacuum bag is placed in a steel cylinder
- 2 air is injected between the cylinder and the bag and the system is sealed
- 3 oil is injected into a four-layer food vacuum bag
- 4 the can is equipped with a three-mode atomiser dispenser

### CAMELINA OIL

The most popular vegetable oil in pre-revolutionary Russia

ideal ratio of **omega-3** to **omega-6** (1:1)

leader in **vitamin E** content

one can is equivalent to **2-3 litres** of bottled oil

### HIGH OLEIC SUNFLOWER OIL

with a pleasant smell and flavour of **roasted seeds**

rich in vitamins of groups **A, D, E, F**

one can is equivalent to **2-3 litres** of bottled oil

### MUSTARD OIL №1

with pleasant spicy taste

pleasant **spicy** flavour and **aroma**

**universal** use in the kitchen

extends the freshness of the oil and is **4-5** times more **economical** than bulk packaged oil

### RAPESEED OIL

has a slight **nutty** flavour

rich in vitamins of groups **A, D, E, F**

one can is equivalent to **2-3 litres** of bottled oil
