Living the Rahmani Group style

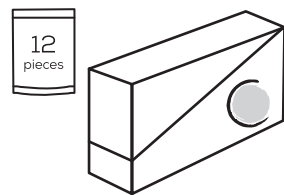

Rahmani's product portfolio includes snacks and bars. Discover our high-quality snacks: nuts and dried fruits thoughtfully and lovingly harvested from the finest farms across the country. Each goes through a meticulous, hygienic process and is then perfectly packaged. These lovely snacks provide the body's daily nutritional needs. Mani bars are produced and marketed in two product groups: nut bars and grain bars. These products are made using a physical compression process with the highest quality nuts, dried fruits, grains, honey and chocolate. Mani Bars offer a complete snack with enough energy, making them a healthy choice for those pursuing a healthy lifestyle."

70% of Rahmani Group Bars are premium nuts. Also, Mani Bars are a delicious combination of grains with nuts and dried fruits
