ENVIRONMENTALLY RESPONSIBLE PRODUCTS

Plastobag Group was established in the year 1968 by P.M. Ahmed Basha, who was a pioneer in the field of plastics. Dedication to service has been our driving force ever since its inception as a family business and has grown with rapid strides to become one of the major manufacturers of all kinds of Polythene Films and Polymer Compounds.

In addressing our commitment towards the environment, we have introduced an innovative Compostable Bio-Polymers which brings a whole new solution to the single use plastics pollution problem.

State-of-the-art production facility with capacity of 30 MT/day.

Multi Colour CI Flexo for High Quality Image Printing, Rotogravure Printing, Flexo Printing upto 8 colours.

Compostable Film width of 1" inch to 100" inch and thickness of 10 microns to 400 microns.

First time in India, each bag comes with a unique dynamic QR Code to identify the genuinity of the product.

Global client portfolio across Retail Sectors, Textile Industries, Hospitality, Supermarkets, Airports, Hospitals and Online Partners.

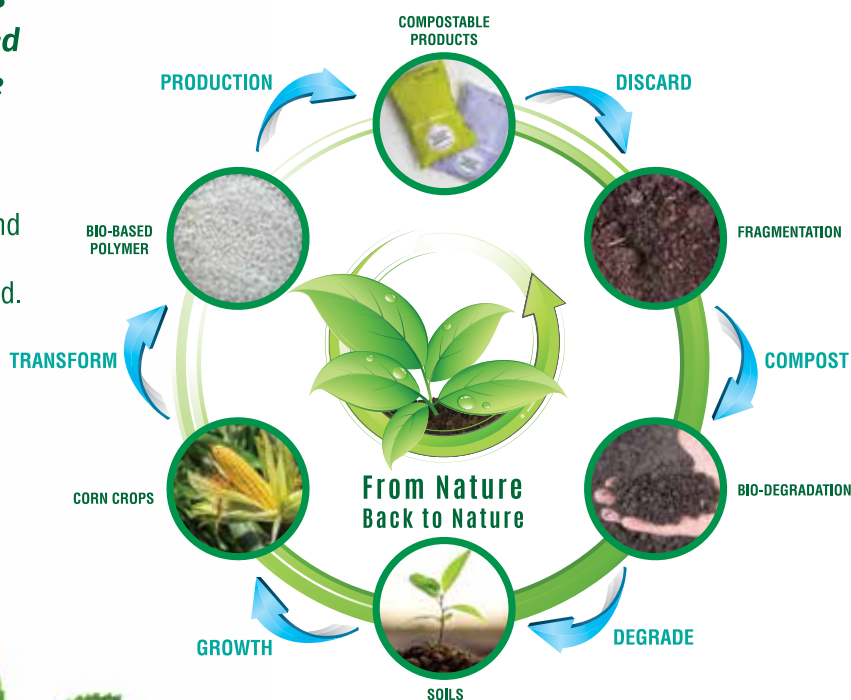

OUR MANUFACTURING UNIT

## LIFE CYCLE OF COMPOSTABLE PRODUCT

***Our Compostable Products  
are certified and guaranteed  
during their use and in the  
end of life phase.***

Microorganisms help transform the materials into CO<sub>2</sub> and H<sub>2</sub>O and biomass nourishing the soil and preparing it for germination of seed.
