

sweet

where your health consciousness begins

## The Company

**F**anar Al Khaleej Tr. was started in 1990 with the motto “Connecting Food with Technology” to provide service to the food industries. Today, the company has transformed into a one stop solution for all food processing industries across the Middle East. The major business divisions of the company include Food Engineering, Refrigeration, Food Ingredients trading, Food Tech Centre for R&D and Al Fanar Food Industries, a custom blend manufacturing unit.

The production plant of Fanar Al Khaleej is equipped with two state of the art blending lines. A newly installed turbo mill system has allowed us to add powdered ingredients to our product range. A number of automatic form fill and seal machine is used for retail packaging for different types. Production workers are trained in Basic Hygiene. Continuous monitoring of personal hygiene and strict cleaning and sanitation procedures ensures product quality and safety.

Al Fanar Food industries LLC is an ISO 9001:2008 and ISO 22000:2005 certified firm involved in the production and distribution of customized powder blends to food processing industries and food service sector.

## Zero N Sweet (Zero Calorie sweetener)

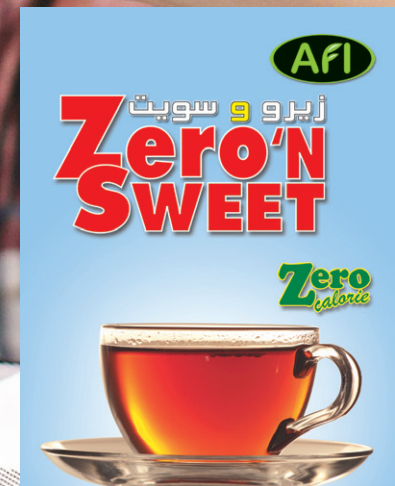

A premium sweet taste without calories is what health conscious customers look for. With a plethora of sweeteners available, a clean sweet taste however remains a fiction because of the bitter, metallic, lingering or unpleasant aftertaste associated with many high-intensity sweeteners.

- In our endeavor to offer great tasting table-top sweetener without loads of calories, we have formulated Zero 'N Sweet.
- It tastes great, very much like the natural taste of sugar. So indulge in a refreshing cup of coffee, tea or any other beverage without the guilt of unnecessary calorie intake.

Available in 1 g Sachet.

1 Outer Pack: 1 g x 40 pieces.

Master Carton: 48 Outer Packs.

## Sweet 'N Zero(Natural Sweetener)

The modern day living, characterized by sedentary lifestyle and lack of physical activity, makes it imperative that an individual is mindful of the calorie intake. Our new sweetener is formulated with that in mind. What's more? It is completely natural!!! We have carefully chosen our ingredients to provide very few calories, without compromising with the natural source of the ingredients.

- The main sweetening component is an extract from Stevia plant. We use Stevia which is extracted from the plant using state-of-the-art processing technology to deliver optimum sweetness to please your taste buds.

Available in 1 g Sachet.

1 Outer Pack: 1 g x 40 pieces.

Master Carton: 48 Outer Packs.
