

# PVC-Free Compounds for Closure

KUANYEH ENTERPRISES CO., LTD.

**MEPA**  
PACKAGING

At **MEPA Packaging**, we provide high-performance, **PVC-free sealing compounds** for the global closure industry through our strategic partnership with **Kuanyeh Enterprises Co., Ltd.**, a pioneer in eco-conscious closure technologies since 1988.

Our compounds are already approved and used by leading global brands such as **Pepsi**, **Coca-Cola**, and several other major multinational corporations, reflecting their proven performance, safety, and compliance.

These PVC-free liners meet the most stringent international food safety standards, including **U.S. FDA & EU regulations**, making them a trusted choice for sustainable & reliable sealing across a wide range of applications.

## Compatible Closure Types

Plastic  
Caps

Aluminum  
ROPP  
Closures

(28mm / 38mm,  
glass &  
aluminum type)

Crown  
Corks

Ring-Pull &  
Lugged Caps

Specialty  
Applications

(medical stoppers,  
lip gloss caps)

## Key Benefits

100% PVC-Free – No dioxin emissions, no plasticizers

Excellent sealing under pressure & temperature variation

Custom liner development available

Suitable for carbonated drinks, juices, water, beer, tea, isotonic drinks, and more

## Why It Matters

Consumers and regulators are increasingly demanding sustainable, health-conscious packaging. Non-PVC liners eliminate harmful leaching, reduce environmental risks, and align your brand's global eco-trends.
