BoxCheck

Reliable Inspection of
E1 and E2 Multi-Purpose Crates

www.clkgmbh.de

Effective Crate Inspection for Uncompromised Hygiene & Safety

The Challenge

Undetected contaminated or damaged crates can lead to a range of issues, disrupting your production process and compromising quality.

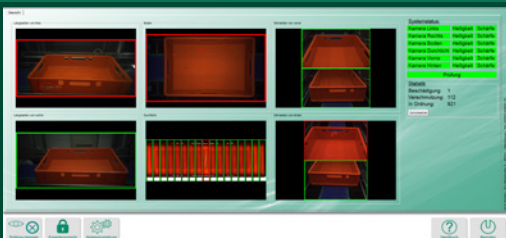

The Solution

BoxCheck offers a comprehensive inspection solution. Utilizing six high-resolution cameras, we capture every angle of your multi-purpose crates, detecting:

- Cracks
- Label residues
- Holes
- Contaminants

Defective crates are automatically removed from the production line or sent for an additional wash cycle, ensuring only the highest quality crates continue in your process.

User interface

Why choose us?

1. Eliminate Unplanned Downtime
2. Boost Efficiency with Automated Sorting
3. Revolutionize Your Cleaning Processes
4. Inspect an Impressive 2,500 Crates per hour
5. Customize Inspection Parameters with Ease
