*Sparkling innovation in
food grade packaging*

A vibrant collage of various food and beverage items, including colorful smoothies, salads, fruits, and packaged snacks, set against a blue background. The items are arranged in a dense, overlapping manner, showcasing a wide variety of healthy and refreshing options. At the top, there are several rolls of colorful plastic wrap in shades of silver, blue, green, red, and gold. Below these, two small piles of white granular material, possibly sugar or salt, are visible. The middle section features a clear plastic cup filled with blue liquid and ice, a bowl of mixed green salad with red and white vegetables, and two small clear plastic containers with red and yellow sauces. The bottom section is dominated by a large clear plastic cup filled with red liquid and ice, a bowl of yellow fruit salad with kiwi and cherry, a clear plastic container of white dumplings, and a clear plastic container of yellow fried snacks. The overall composition is bright and appealing, emphasizing the freshness and variety of the food items.

Our expertise as an APET/RPET sheet producer and thermoformer, coupled with the Group's diverse offerings in resin, enables us to manufacture 100% virgin as well as 100% food grade recycled sheet and thermoformed products. All food grade compliances are ensured in our offerings.

- ISO 9001:2015
- ISO 22000
- HACCP
- BRC
- Halaal certified

Keeping in view the highest standards in quality, Our plants deploy cutting-edge hardware as well as a state of the art lab at our production facility resulting in exceptional quality standards that are being followed for our customers and partners. Our pride is our state of the art lab that enables us to test for AA levels, IV, moisture, crystallinity, haze, transmittance just to name a few!

CUPS AND LIDS

PET DRINK CUPS AND LIDS

Our PET cups/lids are specially designed to keep perfect equilibrium between weight and size. Custom printing is also available. Different sizes ranging from 1 to 24 ounces with dome and flat formats, both with and without straw slots.
