BOPET FILMS FROM NOVATEX

BOPET PCR Films - Film is manufactured by using the raw material containing 10%-90% of post consumer recycled PET resin.

Packaging, Industrial, Metalized, AIOx Films, Specialty Films and Other Offline Coated films

- All Range of Metalized films with higher barrier properties
- Offline coated product like Sealable Peelable, Soft Touch, AIOx Top coated and other related.
- Other specialty films like Heat Sealable, High COF, Twist Films, Matte films, Isotropic Film Etc.

Sealable Peelable Films

Heat Sealable Films

Yarn Grade Films

Candy Wrap Films

AIOx is a new Technology film with extremely high barrier properties suitable for end products with higher shelf life. It was either Aluminum Foil or Metalized films which were able to provide barrier solutions however AIOx films are revolution for replacing them even with requirement of transparent pouches, see-through pouches or regular pouches. AIOx coated PET films are used in Variety of applications such as Food Packaging –Retort and Non-Retort Barrier Packaging Box Lamination, Medical & Pharma Packaging, Electronic Goods packaging etc.

Non Printable AIOx (See through) Films

Available from 12 to 50 Micron (48g to 200g)

Special Metalized Film

Application – High Barrier Pouches (Non Printable) for higher shelf life

Printable AIOx Films

Available from 12 to 50 Micron (48g to 200g)

Special Coating on AIOx Metalized film

Application – High Barrier Transparent Pouches with higher shelf life

BOPET FILMS FROM NOVATEX

BOPET PCR Films - Film is manufactured by using the raw material containing 10%-90% of post consumer recycled PET resin.

Novatex Limited in Pakistan is a part of Gatronova Group. With the brand name of **Krystofilms**, Thickness from 8mic (32G) to 75mic (300G) are produced which includes Packaging Films, Industrial Films, Specialty films and other offline coated Films like ALOX, Sealable Peelable etc with Global presence in over 50 Countries.

LEADING EDGE OF INNOVATION AND ADVANCEMENT

- The current production capacity of BOPET film is 110,000 MT / 242 million Pounds per year with two Dornier (Germany). 8.7 meters/ 342 Inch wide and one Bruckner (Germany) 10.7 meters / 421 Inch wide.
- One 2.85 meters Metallizers & Two 2.95 meters Metallizers along with one widest 3.3 Meters Metallizers we are at a total Capacity of 25,000MT/ 55 million pounds per year.
- One Offline coated Machine 1.65 meters with capacity of 2,400 MT / 5 million Pounds per year.
- Three Pancake Machine /Narrow Slitting – 6,000 MT / 13.2 million Pounds per year.

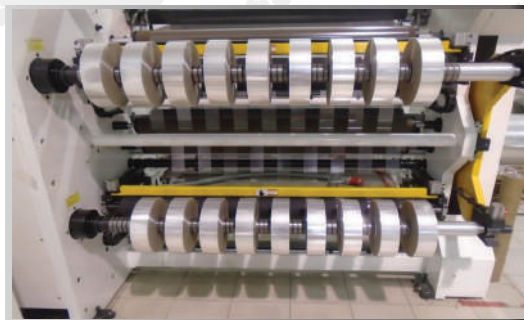

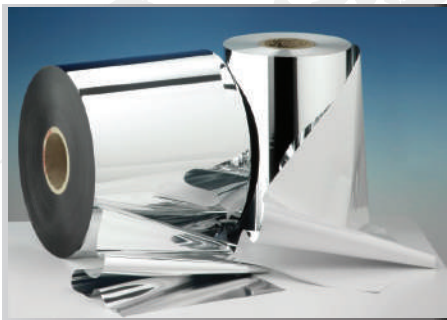

Application we serve to:

- Flexible Packaging- Printing,
- Lamination Metalization
- Retort and Pasteurization Application
- Siliconizing and Adhesive Tapes
- Yarn Grade Clear / Met (Pin Hole Free)
- Mining Application
- (Twist Grade) Candy & Chocolate Packing, Clear & Metalized
- Lidding for Dairy Products.
- Industrial Application - Release Film
- FRP & GRP Applications,
- Cable Insulation & AC Ducting

Speciality Films:

- ALOX – High Barrier & Medium Barrier Transparent/Met Coated/Uncoated (Printable & Non-Printable grades)
- PCR Films (up to 90% PCR Content)
- Metalized High Barrier Films (OD Up to 3.5)
- Metalized High-Bond Strength Up to 1000 grams/Inch
- Metalized Films for Paper Board Lamination
- Peelable- Sealable Films
- Matte Films/ Matte Metalized (Haze 30% to 80%)
- Heat Sealable/High COF Films
- Isotropic Films/Hot Stamping Films
- Hot Stamping Films

Advantages

Zero Import Duty in US , Canada, Brazil, UK and Europe, 3.5% Import Duty in Turkey (6.5% applicable on other suppliers). Negligible Transit time in Middle East and African Markets. Manufacturing location very close to shipment port (Karachi) In-house RM allowing uninterrupted supplies and quality

Novatex step towards sustainability with RPET BOPET FILMs from Inhouse RPET Resin
