Our Irresistible Fragrances

Appeasing the senses is a complicated affair. Like music, it takes just the right notes to create a desirable and appealing sensorial experience.

Our perfumers and application technologists combine creativity and chemistry to select the right notes and develop fascinating fragrances. Close collaboration between all departments allows us to offer products which are both innovative and functional.

Technology behind Innovative Developments

We work with over 1000+ diverse raw materials everyday to create a memorable experience for the senses.

We are powered by latest automatic production systems to complement our workforce with precision and efficiency and equipped with state-of-the-art automated dispensing tools, which controls the accuracy of formulations to PPB threshold levels at high speed accuracy. Our systems allow us to record every drop going into our products with end-to-end traceability.

Safety & Certifications

Respecting the law, valuing our customers and meeting the highest of standards. These are the goals we strive for daily to ensure safe and high quality end results.

Our manufacturing process is compliant with local and international fragrance regulations and quality management guidelines. Some examples of our systems include IFRA, good manufacturing and good hygiene practices, Food Safety System Certification (FSSC-22000), Food Safety Management System (ISO-22000), Quality Management System (ISO-9001), and Halal Food Safety Management System.
