

Gulf Printing & Packaging
الخليج للطباعة و التغليف

COMPANY PROFILE

ABOUT COMPANY

Our journey began in 1999 with Al-Khat Packaging in Kuwait. From the outset, we quickly established ourselves as a leader in the paper packaging industry, delivering safe and reliable food packaging solutions across the MENA region.

In 2018, building on nearly two decades of expertise and success, we expanded our footprint with the launch of Gulf Printing & Packaging (GPP) in the United Arab Emirates. Both Al-Khat and GPP are united by a shared commitment to innovation and excellence. Through continuous investment in cutting-edge printing and packaging technologies, we operate state-of-the-art facilities that uphold the highest standards of quality and efficiency

OUR MISSION

To become the leading global provider of eco-friendly packaging solutions, driving sustainability and innovation in every product we create.

Excellence

Consistency

Product
Quality

Efficiency

OUR VISION

To provide top packaging solutions with innovation, safety, and continuous improvement, adhering to **ISO** and **BRC** standards.

PRODUCTION PROCESS

Pre-Press Department Overview

Our Pre-Press Department is equipped with state-of-the-art Apple iMac computers and industry-leading design software, including specialized packaging design tools. The department also features a high-tech Aristo sample maker, allowing us to produce accurate prototypes and mockups for client approvals and internal testing.

Computer-to-Plate (CTP) System

Our facility is equipped with two high-performance CTP machines, each featuring a diamond stylus imaging head, supplied by Fujifilm Luxel — a globally recognized leader in CTP technology. These advanced machines guarantee exceptional plate precision and consistency, ready to be mounted directly onto the printing press.

PRODUCTION PROCESS

Printing Department

Our printing process begins with cutting-edge technology, featuring the Heidelberg XL106 and the KBA 7 color press with inline Cold Foil capability. These high-performance machines ensure brilliant color accuracy, exceptional detail, and consistent print quality across every job—whether it's luxury packaging or high-volume production.

Die-Cutting & Finishing Department

Our facility is equipped with 7 fully automatic die-cutting machines, including the BOBST, Eterna ECUT 106 and MK Promatrix 106, featuring advanced capabilities such as stripping, embossing, and blanking. These machines deliver ready-to-fold outputs with exceptional precision and efficiency, accommodating complex packaging designs with ease.

PRODUCTION PROCESS

Folder-Gluer Department

Our finishing line includes 3 BOBST Folder Gluers and 1 ACME Folder Gluer, capable of producing a wide range of folding cartons such as crush lock, four- and six-corner cartons, French fries cartons, and more. These versatile machines handle complex folding with precision and speed to meet diverse packaging requirements.

Additionally, our folder-gluer is equipped with a hot melt gluing attachment from HHS Germany, enabling efficient bonding of PE, MetPET, and other laminated cartons. This ensures strong, durable seals while maintaining the high-quality finish your products deserve.

Quality Verification

Every product undergoes a rigorous inspection to meet our stringent quality standards. From verifying color accuracy to ensuring structural integrity, our team meticulously checks every detail to deliver flawless results. We also adhere to the highest global quality certifications, including FSC, BRC, and ISO, providing our customers with confidence in our commitment to excellence.

PRODUCTION PROCESS

Warehouse

After production and quality verification, the finished products are stored in our meticulously organized warehouses. Designed to maintain product integrity, ready for timely distribution.

Delivery

The final step in our process is seamless delivery. Through our robust and efficient supply chain system, we guarantee that your packages are delivered on time and in pristine condition. Whether your destination is local or international, our logistics team ensures your deadlines are met, keeping your business operations running smoothly.

SUSTAINABILITY CONCEPT

At GPP, we understand that sustainability is essential to building a successful and responsible modern business. As a global leader in innovation, we are committed to integrating environmental stewardship, operational excellence, and social responsibility into every aspect of our operations. Our approach centers around three key pillars: Product Sustainability, Process Sustainability, and People Sustainability.

**Product
Sustainability**

**Process
Sustainability**

**People
Sustainability**

OUR CERTIFICATES

CERTIFICATE

This is hereby certified that the Quality Management System of

GULF PRINTING & PACKAGING CO LLC

Khalifa Industrial zone Abu Dhabi (KIZAD), Block 8, Building 88,

PO Box 8710, Abu Dhabi, UAE.

Has been found to comply with the requirements of

ISO 9001: 2015

This certificate is applicable for the following scope:

LITHO PRINTING USING INKS AND VARNISHES ON PAPER AND PAPER BOARD, FOILING, LAMINATION, FLUTING, DIE CUTTING, WINDOW PATCHING, FOLDING AND GLUING, SUPPLYING, FINISHED PAPER BOARD PACKAGING BOXES FOR FOOD AND NON FOOD SECTORS.
