BIOMAG

La passion des saveurs

Creator of flavors and food blends

WWW.BIOMAG-SARL.COM

COMANER GROUP

In a world where flavors and taste preferences are constantly evolving, we are continuously exploring new directions.

BIOMAG was founded in the Sidi Slimane region, where its production unit is located. Aware of the significant expansion of flavor consumption internationally, we have continually invested in human resources and sophisticated technologies to become a leader in the food flavoring sector.

Our strategy is based on listening to and understanding the local market. Through investment in research and development, new formulas have been created to improve product quality, especially in the fields of charcuterie, liquid flavors, and powdered flavors.

BIOMAG, with its 43 years of experience, has become a true partner and key player for manufacturers and consumers.
