

ILLARGUI

Illargui, present in the food industry (baking) since 1971, is specialised in the production of industrial breadcrumbs from bread made exclusively for this purpose in our facility located in Salvatierra-Agurain (Álava), being one of the most modern and advanced factories in the world in its sector.

Our Philosophy

At Illargui, we understand that offering optimal quality and service is essential to establish a fruitful and trusting relationship with our customers.

QUALITY: Each of our products is made according to the most demanding international quality standards.

CUSTOMER SERVICE: Our professional team is committed to provide efficient and reliable service, listening carefully to the needs of our customers.

Market

Located in the north of Spain, with 8500 m² of production facilities, we are leaders in the manufacture of breadcrumbs at national level and currently we export to the five continents, adapting to their needs, tastes and requirements.

Commitment

At Illargui, we also give importance to issues that matter to society: we take care for the environment, people and the future, with social responsibility, training, and equality plans.

Quality and Innovation.....

Our R&D department is motivated to continually update its product range by constantly addressing our customers' needs. Therefore, we work closely with each client to develop products that meet their specific needs.

We hold the most stringent quality certifications, both nationally and internationally, allowing us to access virtually any market.

Our manufacturing process makes us strong.....

1 Fully automated process

From the reception of raw materials to the dispatch of the packaged product, we have a fully automated system.

2 Production capacity

We have 3 production lines and 3 packaging lines that allow us to produce more than 3,000 tons of breadcrumbs per month.

3 Advanced Technology

Our facilities incorporate the latest technology to guarantee maximum quality and efficiency in all our processes.

Variety: more than 100 references.....

Different granulometries manufactured with absolute regularity, guaranteeing consistency in each production batch.

Wide range of colors using natural colorants, which can be dosed either in powder (clean label without E number) or in oleoresins.

We offer a wide variety of recipes and formulations: thanks to our micro-component dosing system, we can tailor the recipe to customer requirements, adding the required ingredients and adapting to their needs.

Types of breadcrumbs

Coverage

Different types of breadcrumbs for breading, available in a wide range of colors and flavors; breadcrumbs specifically for refrigerated products, which delay the transmission of moisture from the product itself and therefore improve its appearance and extend its shelf life.

Incorporation

They are used as an ingredient or filling in dough (hamburgers, ravioli, etc.). They have a higher water absorption rate and improve the texture of the products in which they are incorporated. Valid for use as a thickener in various products.

Special and spiced

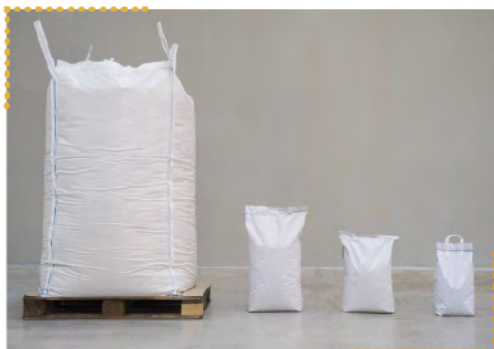

Crispier coatings with more attractive appearances. These are lighter breads available in various grain sizes and colors. Some of them incorporate spices or other products to achieve different flavors and appearances in the final product.

Healthy toppings

Are whole-grain and/or organic breads available in a variety of textures and colors. They address current market trends focused on healthier products.

Packaging formats

1 Industrial format

A multitude of formats available, both in two-layer kraft paper bags with a polyethylene inner layer or in plastic bags. Designed to meet the needs of the food industry.

2 Retail

Square polypropylene package available from 250 gr to 750 gr. perfect for the end consumer with attractive and practical designs for home use.

3 HORECA Channel

Formats specially designed for hotels, restaurants and catering services, which facilitate storage and use in professional kitchens.

Illargui: a safe bet for a quality product

At Illargui, we are committed to offering the highest quality products that meet the specific needs of each customer.

With more than 50 years of experience in the sector, our dedication, innovation, and excellence have positioned us as leaders in breadcrumb manufacturing at national and international level.
