

- Performs wide pillow packaging of snacks in multi-lines.
- Sanko's original control technology provides high speed packaging ; produce up to 120 bags per minute in each line.
- Can be change a bag shape to Tag & Hole punch style (Add optional device)

Example

Vertical pillow packaging for snacks.

*Note: The product is under development. The photo is a illustrative purpose only.

| Model | SP1-[J]L | Product form | Vertical-type wide pillow bag |
|----------------------------|---|--------------|-------------------------------|
| Packaged object | Granule, Dry food and Snack (*Note 3) | | |
| Bag width/Film width | 75~145 mm /1080 mm (Max Film width) Minimum slit width per bag : 175 mm | | |
| Packaging speed | 1-line 10~120 bags/min Ex) 4-line 40~480 bags/min (*Note 1) | | |
| Bag length | 50~230 mm | | |
| Diameter of packaging film | Ø 500 mm | | |
| Power supply | 3-phase, 200VAC, 50/60kHz, 6kW at peak, 3kW on the average | | |
| Dimensions | W 2,060 × D 2,540 × H 2,680 (mm) (*Note 2) | | |
| Weight | Approx. 3,000 kg (*Note 2) | | |
| Air consumption | 0.6 MPa 650 NL/min | | |
| Standard device | <div><div><ul style="list-style-type: none">• Operation interface : Touch panel• Photocell type Pattern matching device• Film join detector• Film breaking device• Interlock• Film end stop device• Film shortage warning device• Cutter device</div><div><ul style="list-style-type: none">• Heater temprature monitor• Abnormal air pressure stop device• Automatic vertical seal bar• Film horizontal moving motor• Air gun• Film rear cover• Hopper</div></div> | | |
