Spraying Systems Co.®
Experts in Spray Technology

AUTOJET® GLAZING SYSTEM ENGINEERED FOR YOUR SUCCESS //

With over 85 years of expertise, our exclusive software and custom-engineered electronics push performance beyond limits, delivering results you won't find anywhere else.

OUR PULSAJET® NOZZLE: THE CORE OF PRECISION SPRAYING //

ENVIRONMENT

The airless **PulsaJet®** eliminates the need for compressed air, minimizing misting and environmental contamination.

QUALITY

Ensuring uniform and consistent coating application, reducing waste and overspray.

SEAMLESS INTEGRATION BETWEEN HARDWARE AND SOFTWARE //

COST SAVINGS

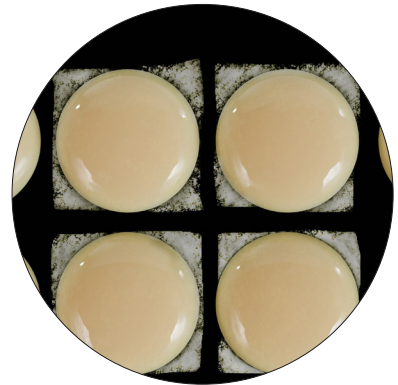

Smart Empty Pocket Detection:

No dough, no spray,
no dirty cavity and no waste.

Reduce material usage by
applying the exact amount
of coating required.

Smart Spraying Technology

ensures millimeter-close accuracy,
minimizing coating between rows.

VERSATILITY

Designed to adapt seamlessly to production lines
ranging from 1.000 up to 100.000 units per hour,
ensuring optimal performance at any scale.

CIP: EFFICIENT 30 MIN CLEANING CYCLE

Reduces contamination risks and ensures
compliance with food industry standards.
