

BENNI FOODS LTD (UGANDA)

The leading milk processing company,
manufacturing milk products sustainably

ABOUT US

With over 30 years of our experience in manufacturing and exporting Dairy Ingredients globally, now we are excited to offer **premium quality dairy ingredients from our UGANDA manufacturing unit**. Wherein, we are proud to be handling very high quality **Cow Milk** with an initial installed capacity of **1 Million Litres per day, spread over 105,000 Sq Mtrs of Area**. Our manufacturing facility is equipped with cutting-edge machinery sourced from renowned companies like Westfalia, Alfa Laval, NIRO, Tetra Pack, Novasep and so on and is **accredited by Halal, FSSC 22000, HACCP, Kosher, FDA and GMP standards**.

Some key Highlights of our Uganda Facility includes:

- Sufficiently available - 100% Cow Milk
- Chemical free Milk with zero pesticide and Antibiotics
- Grass-fed Milk
- Automated processing plant with no human touch with the product
- Extended milk Season ensuring consistent supplies throughout the year
- Only 33% of countries milk is processed currently
- Great ecosystem to enhance milk production for future
- Competitive Pricing – without compromising on quality
- Market Access to All the major markets, including USA, ASIA (including China), Middle East, LATAM, Algeria, Russia and African Markets.
- Continued commitment towards environmental sustainability
- Backed-up with dairy manufacturing expertise of over 3 decades

We are dedicated to produce safe, high-quality dairy products for our global customers. With a strong emphasis on delivering highest product standards & unwavering reliability, establishing us as your trusted partner in dairy.

Sustainable Approach towards reducing carbon emission to make earth more liveable. By making our facility

- Discharge Free - Zero Discharge from the plant and production
- Use of all Bio Fuel & Renewable Energy,
- Initiatives planned at farmers end to recycle the cow dung & wastes
- Plantation of more and more trees to negate our carbon emission
- And many more....
