

Fujairah Plastic

Factories Group

About Us

Once upon a time in 1982 Mr. Khalifa Mattar Al-Kaabi a proud Emirati National, built Fujairah Plastic Factories Group (FPFG). Our visionary's foresight inspired the manufacturing of commodity plastic and flexible packaging then grew this empire through integrity and commitment to a vibrant hub that currently has 4 operating factories across the UAE exporting to more than 55 countries worldwide echoing the UAE's vision of becoming globally renowned.

Finance & Admin Director

Shopping Bag

Single use shopping bag as HD or LD with handle options of T-shirt, D-cut and loop handle.

Garbage Bag

HDPE or LDPE heavy-duty bags in roll form or as single pieces.

Sheets

HDPE or LDPE sheets used as table sheets or prayer mat in roll form with perforation.

UAE's first user of symphony's D2W Oxo-Biodegradable Plastic

As we see broad use of plastics for packing and wrapping of food products, we saw the need to have environment friendly plastic packaging. In 2010, we collaborated with UK's symphony to introduce their innovative formula d2w to UAE. d2w helps reduce the life of a plastic bag from million years to months. With only 1% addition during extrusion we are able to oxo-biodegrade plastic products. It can be used in extrusion of both HDPE and LDPE for adding the degrading property to sheets and bags of different kinds used for shopping, packing frozen food, bakery, fresh produce and more

Produce Bag

HDPE produce bag or vegetable bag used for packing fresh fruits and vegetables can be made of different widths with perforation.

PP - polypropylene

PP bags are used for wide range of products from packing food to cloths. Its a high clarity bag with or without sealable tape.

Shrink Film

LLDPE shrink film either printed or plain with various clarity % and repeat lengths.

Stretch Film

Automatic or Manual use stretch film in various length, widths and extended cores.

PE Sheet (Construction & Agriculture)

Sheets used for construction and agriculture with up to 1000 gauge. With or without UV stabilizer

BOPP Pearlized

BOPP with shiny pearlized is used mainly for packaging ice creams, candies, soaps, biscuits and more

BOPP

BOPP as single layer can be used for packaging biscuits, confectionery and more

CPP

CPP as a single layer can be used for packaging bakery, confectionery items and more

Bakery Bag

Flat to square, various types of bread bag in LDPE with perforated flap and gussets.

Frozen Food Bag

Transparent or white poultry bags of different sizes and print upto 8 colors with perforated flap.

Metalized BOPP + BOPP

Its used for packaging wide range of products such as chips, snacks, baking, cereal, pet food and more.

Pearlized BOPP + BOPP

Its used for packaging products such as confectionery, personal care and more.

Transparent BOPP + BOPP

Its used for packaging products such as pantry staples, fresh produce, bakery and confectionery.

Metalized BOPP + CPP

This can be used for packaging chips, snacks, baking, cereal, pet food, wipes and more

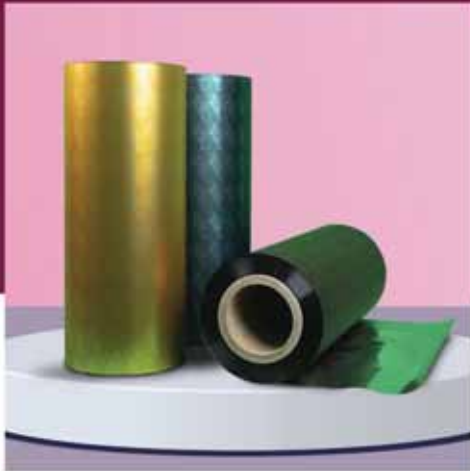

Transparent BOPP + CPP

2 layer transparent film used mainly for packaging staples, dry food, confectionery, and more

PET +MetPET + PE

Its used for packaging products such as flour, wheat, dry ingredients, personal care and more

PET + ALU + PE

Its used for packaging food products such as coffee, dairy, liquid juice, ketchup, baby food, personal care and more

PET + ALU + PET + PE

This 4 layer is used for hot fill of food products such as tomato paste, ketchup, mayonaisse, hot sauce and many more.

PET + PE

Polyster with white or transparent LDPE can be used in products such as cleaning supplies, industrial use and more.

PE + PE

PE extruded and laminated in 2 layers is widely used for packing liquid products such as milk, juice and more.

Our manufacturing plant is equipped with the highest technology machinery; Bandera extrusion machine for PE, Combi lamination machine, Flexotechnica HD for up to 8 colors and Cerruti Rotogravure for up to 9 colors printing, Ashe slitting machine and Windmoller & Holscher FFS line. With attached QC department having newest technology testing equipment and highly qualified personnel backing the quality of production, we have in-house designer for exclusively creating your brand from scratch.

Kraft Paper Bag

Introducing our new Kraft Paper Bags! Eco-friendly and durable, these bags come in twisted or flat handle variations, with GSM options ranging from 70 to 140. Available in both bleached and unbleached paper sourced from high-quality suppliers, ensuring durability and strength. Customize your design with up to 6 colors, perfect for showcasing ***your brand***

Our Reach to 55+ countries and Counting...
