HIGH SPEED ROTARY FILLING MACHINES

LINEAR FILLING MACHINES

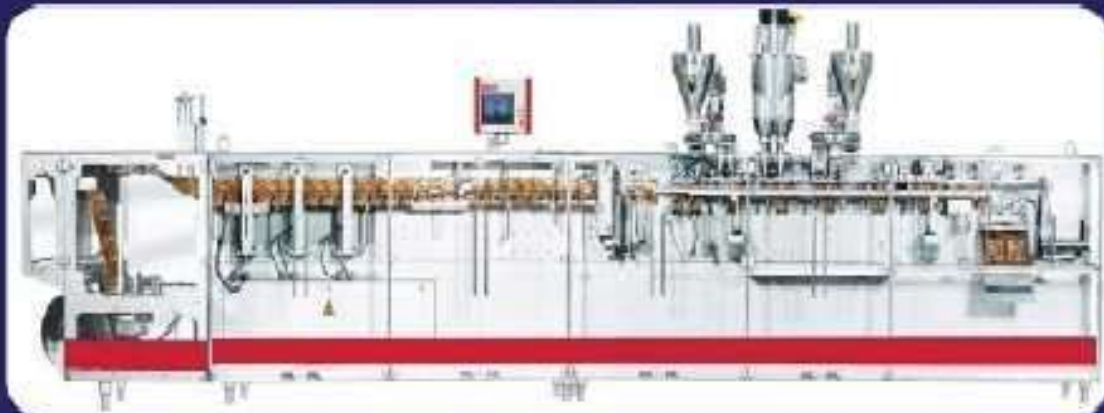

We supply Filling systems designs and a world class application specific, liquid filling machine for almost all major Industries. With over 800 designs of both standard and unique packaging machinery, our range of filling machine choices ensure smart fit to your needs.

HORIZONTAL FILLING AND FLOW WRAP MACHINES

Horizontal Form Fill and Seal Machine

The designed to produces 3TU or flat pouches from the reel. The machine features, pouches with partial or contour shapes as well. Capable of filling fruit juice, compote, yoghurt and dairy products, ketchups etc

Flow Wrapping Machine

Flow Wrap is a quick and economical method of packing a range of products. Items can be wrapped either individually or collated with several other products. The process is popular for packaging promotional items, such as sample of food or beauty products for door drops, or free gifts for packaging inside cereal boxes.

LABELING MACHINES

Rotary Labeling Machine

Wrap Around Labeling Machine for Round Bottle

Front & Back Labeling Machine

Top Labeler

Labelling speed of both heads is automatically synchronized with conveyor speed to ensure quality labeling.

Horizontal positioning screws for labelling heads alignment belts and separators are quickly self centering and adjustable from either side of machine.

0-40 Meters per minute variable speed adjustment.

No adjustment needed for label placement when conveyor speed is changed. No adjustment for different label length is necessary.

The self set TM microprocessor automatically detects the label and adjusts the label sensor to the label.

PALLET WRAPPING MACHINES

P1 with 2 wrapping programs, inverter for turn tables and film carriage control, with photo electric cell to read the pallet height. IP54 production.
Max Wrapping Ht: 2.4 mtr
Load: 2 Tons

Option:
Loading Ramp

SW2 with 4 wrapping programs, inverter for turn tables and film carriage control, with photo electric cell to read the pallet height. IP54 production.

Load: 2 Tons

Options:
Loading Ramp
Pressing Unit
Pallet weighing System

WS46- Fully automatic machine to wrap palletized loads with stretch film. Inserted in handling line or after palletizing machine, it takes card to index-wrap cut the film and evacuate the pallet on a discharge conveyor, and all the operation of the machine are controlled by PLC.
Max Wrapping Ht: 2.4 mtr
Load: 2 Tons

WR100- Motorized rear wheels, forklifting from the back side. Soft start-robot speed adjustment, film carriage belt driven along column. Safety system to prevent carriage fall PHOTO EYE for pallet height sensing.
Max Wrapping Ht: 2.8 mtr
Load: Unlimited

CARTON SEALING MACHINES

SK2 RANGE-
Semi Automatic Carton
Sealer Manual Adjustment
on the Different Box Sizes
Driving Belts speed 20 mt./min
Box Dimensions:

Min. W140 H110 L150 mm
Max. W500 H500

SS RANGE
Semi Automatic Carton
Sealer Manual adjustment
on the different box sizes

Box dimensions
Min. W150 H120 L150 mm
Max. W500 H500

SM11 RANGE - FIXED FORMAT
Automatic Manual Adjustments

Carton Sealers
Side motorized driving belts (2 x 75 mm
wide each - 100 mm SM116)
Motors 0, 18 HP

HM11-TB Automatic Carton Sealer
with Hot-Melt Gluer for Top and
Bottom Gluing

PALLET INVERTER

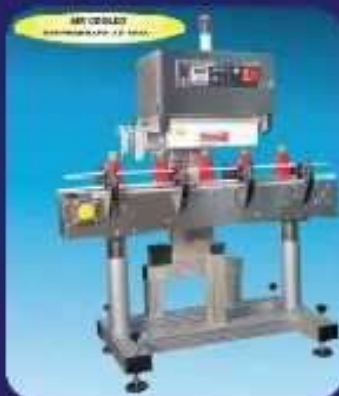

The Standard Pallet Inverter is our most
adaptive pallet inverter. It inverts all loads types
from bags, drums, glass and cartons to give you
a small example. It offers very tall load and short
loads.

INDUCTION SEALING MACHINES

Fully Automatic Air cooled high speed Induction Sealers (2KW) with/ without conveyor

Portable Induction Sealer

Table Auto Sealer

IMPULSE SEALER MACHINES

TPS provides quality Impulse Sealers that are the No. 1 selling sealers. Perfect for a multitude of applications. Makes excellent air and water tight seals on most plastic materials.

Continuous Band Sealer

Foot Sealer

Impulse Hand Sealer

Features:
High quality sealing machine
Safety
Easy to use
With Beep Is Available

SHRINK WRAPPING MACHINES

Automatic L Sealer Model: Model: GTI H-00LCS
Output up to 3000 packs/hour
Sealing bar: 640 x 610 mm

Single Block Wrapping Plant

Semi Automatic Modular Heat Shrinking Wrapping Machine Model: TS80 Output up to 0-900 packs/hour
Sealing bar: 640 x 600 mm

Sleeve Wrapping Machine

Hot temperature sealing bar, 700 mm wide,
pneumatic activated
Safety feature on the sealing bar
Maximum sealing width 380 mm.
Automatic pressing bundle system

SHRINK TUNNEL

TT-40

High Speed Shrink Tunnel

TT-60

STRAPPING MACHINES

Semi Automatic Strapping Machine

High engineering standard and simple design
Easy operation, simple maintenance
Hinged stainless steel top plate
Mechanical outside tension control
Rigid castors with brake
Energy efficient, motor only runs as needed
Reliable P.C. Board control
Affordable for every budget
Offer maximum total value among competing brands
Proven quality

Technical Data
Strap Width 12mm (other width on request)
Strap tension 45kg
Sealing method Heat
Net weight 100kg
Rated Voltage 220V 50/60Hz 1PH

Automatic PP Strapping Machine

Easy operation, simple maintenance
Mechanical outside tension control
Tension can be easily set with a dial
Affordable for every budget
Options:
Stainless steel frame SUS 304 (TP-6000S)
Short feed sensor

Technical Data
Strap Width 12mm (Other width on request)
Strap tension 10kg-70kg
Speed 27 straps/minute (60Hz)
Table Height 810mm
Net weight 220kg
Rated Voltage 220V 50/60Hz 1PH

Automatic Strapping Machine Belt Driven

Multiple straps for single, double and continuous strapping or transit mode
UP and down stream interlock with complete plug connection
Options:
Siemens PLC control
Variable conveyor speed: 18 meter/minute to 42 meter/minute
Roller driven table/Belt driven table
Stainless steel frame SUS 304(TP-601S)

Technical Data
Strap Width 12mm (Other width on request)
Strap tension /kg <kg
Conveyor Speed 30 meter/minute
Table Height 820mm
Net weight 100kg
Rated Voltage 220V 50/60Hz 1PH

STRAPPING TOOLS

STRAPPING TOOLS FOR STEEL & PLASTIC STRAP MANUAL & BATTERY & PNEUMATIC

IMA 13/19

STPM 19/32

INCA HT 13/19

STSR 3 BUTTONS 19/32

POLI HT 25

POLI WELDING 10/19

IMPA 13

IMPA 16

GT ONE - Automatic Battery Strapping Tool

POWER HP 16/19

SMART LXT

VERTICAL AND HORIZONTAL SEALER MACHINES

Vertical Band Sealer

Thick and solid body for semi-permanent life
Easy operating and replacing for parts
Emergency stop button against danger

Technical Details

Sealing Speed : 14M/ minute
Power Consumption: 1,020W

Horizontal Band Sealer

Sealing width: 5, 10, 15 mm
Sealing Temperature : 0-380
Cooling Type : Forced air cooling (1bar)
Power Supply: 230V, AC, 50Hz, 1ph.
Electric Height: Adjusting device (Standard)

STANDARD CONVEYOR

**Extendable Idle
Conveyors**

**Idle Rollers
Conveyors**

Belt Conveyors

Curves

Diverter

CHECK WEIGHER AND METAL DETECTOR

Check Weigher

Metal Detector

SCISSOR LIFT

Scissor Lift Tables are an extensive range of capacities, features and options to provide the factory and warehouse with lifting and work positioning. Safetech scissor lifts/scissor table range are durable and includes many safety features are exclusive to safetech.

CONSUMABLES

PET/ PP STRAP

STRETCH FILM

BOPP TAPE

CORRUGATED BOXES

EDGE GUARD

SHRINK FILM

Complete Turn-key solutions in Packaging Catering to :

- High Speed Filling Machines for Liquids, Powders & Granules
- Automatic Capping Machines
- Induction Sealing Machines
- Horizontal, Vertical Form fill Sealing Machines
- Linear, Rotary Labeling Machines
- High Speed Shrink Wrappers and Tunnels
- Customised Shrink Sleeve Machine
- X-ray Scanner, Metal Detector & Check Weigher
- Fully Automatic Strapping Machines for Steel/ PP/ PFT
- Online Pallet Stretch Wrapping Machines
- Bundler / Sleeve Wrapping Machines
- Robotic Palletizers System
- Packaging Automations and Warehouse Automations
- And much more
