

Are you looking for a **high-speed** printing solution that can handle **QR/2D codes** - even on curved surfaces - **faster** than your current printer?

inPhocal, Light without Limits

Beverage cans printing

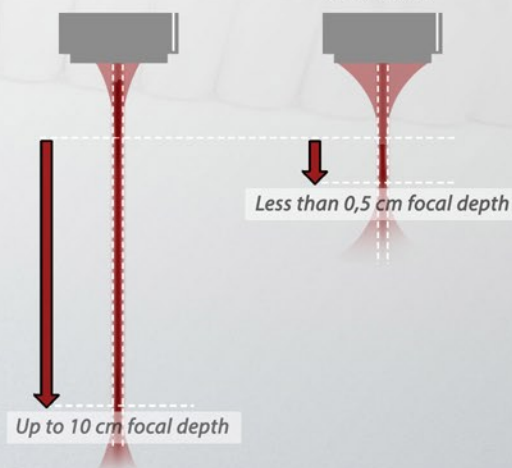

- Disruptive technology
- Fastest dynamic QR/2D code in the market
- More speed than conventional laser and inkjet printers
- Curved surfaces printing without compromising on speed
- Fulfill your Green Ambitions, no more toxic inks

We give you 100% power over a focal depth up-to 20 times bigger than conventional laser systems!
