# EMPOWERING BUSINESSES WITH RELIABLE AND SUSTAINABLE SOLUTIONS

## Sustainable Packaging Solutions

Yashtech offers a diverse range of eco-friendly and customized packaging solutions tailored for the food and hospitality industry. Our product lineup includes kraft takeaway boxes, paper bags, compostable cutlery, biodegradable straws and more, ensuring sustainability without compromising on quality, we help businesses enhance their brand image while promoting environmental responsibility.

## Hygiene Products

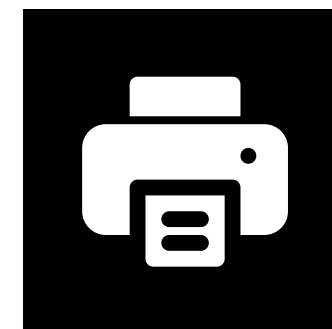

Maintaining hygiene is crucial for any business, and Yashtech provides a comprehensive selection of hygiene products to ensure cleanliness and safety. Our range includes safety gumboots, disposable gloves, sanitizers, surface disinfectants and more, catering to restaurants, healthcare, and industrial sectors. With high-quality materials and effective protection, we help businesses uphold the highest standards of cleanliness.

## Housekeeping Products

Yashtech supplies premium housekeeping disposables that keep commercial and hospitality spaces spotless and hygienic. Our range includes maxi rolls, toilet rolls, T-Tork tissues, J-cloths, paper napkins, and biodegradable garbage bags, offering superior absorbency, durability, and convenience. Designed for high-traffic environments, our housekeeping products ensure efficient cleaning and maintenance for a pristine workspace.

## Printing Solutions

Enhance your business branding with Yashtech's custom printing solutions, specializing in food labelling printers, high-quality labels, custom printed packaging. Whether you need labels for food packaging, barcodes, or stickers for promotional branding, we provide printing solutions that ensure durability, clarity, and a professional finish. Our advanced printing technology helps businesses create standout packaging and labeling for a strong market presence.

Choosing sustainability starts with our plastic-free,

## PACKAGING SOLUTIONS

### KRAFT

At **YASHTECH**, we're in love with the timeless charm of kraft paper. Our commitment to sustainability and quality shines through in every product we offer. Whether you're serving sandwiches, pastries, or salads, our kraft packaging elevates the visual appeal of your food while staying true to your eco-friendly values.

### BAGASSE

**Bagasse**, the fibrous residue left behind after extracting sugarcane juice, is a sustainable packaging material that exudes elegance. Its natural color and sturdy texture gives it an upscale, organic look. Our Bagasse containers and plates offer a unique way to present your food, enhancing its visual appeal.

### ARECA PALM

For those seeking an exotic touch in their food presentation, Areca Palm Products from **YASHTECH's** are a fantastic choice. The intricate texture of these palm leaf plates and bowls add a touch of sophistication to your food service. Whether you're serving appetizers, main courses, or desserts, these unique tableware offer an exceptional way to showcase your culinary creations while contributing to a sustainable planet.

# FLEXSIL LID

## Looking for an innovative solution to food pan covers?

This Food-Grade, Reusable Silicone Lids are specifically designed to reduce the use of Plastic Film Wrap and Aluminium Foils on Gastronorm and Steam Pans used in Commercial Kitchens! The unique lip-lock design locks in freshness and reduces food waste with an airtight seal. The multiple uses when used with gastronorm containers, include cooking in the oven or microwave up to **220°C / 428°F**, freezing to **-40°C / -40°F** for storage in cold stores or fridges. When used with racking trolleys, the leak proof seal and smooth silicone edges of Flexsil-Lids help to prevent the risk of spillage, burns from hot food products and the gastronorm containers sliding during transport.

**flexsillid™**

# COMPOSTABLE CLING FILM

**A simple switch to help chefs with their sustainability journey.**

With no compromise on quality, the **Compostable Cling Film** gives chefs an excellent general-purpose wrap that's biodegradable in home or industrial composting environments. Made from biodegradable and compostable polymers which break down in composting environments, the Compostable Cling Film is also **PLA, Plasticizer, BPA, Phthalates or PVC free** and not made from any food crop or vegetable sources. Developed for all professional kitchens, The Compostable Cling Film can be used for covering and wrapping all types of food, including those with a high fat content. It is also safe to use in the fridge and freezer, making it the simple switch for chefs to protect food, preserve flavour and reduce food waste.

BIODEGRADABLE IN HOME OR  
INDUSTRIAL COMPOSTING  
ENVIRONMENTS

Best used with dispensers that provide effortless dispensing of Catering Cling film, Aluminium Foil and Baking Parchment with a perfect cut every time.

# ESSENTIAL SAFETY AND HYGIENE PRODUCTS

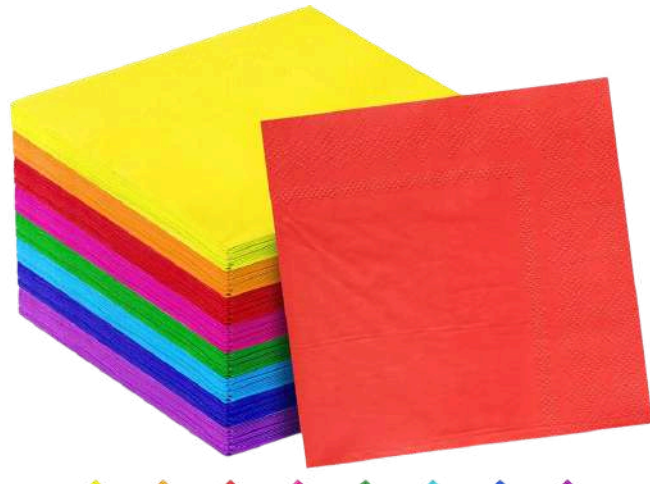

At Yashtech, we are dedicated to delivering the highest quality **Personal Protective Equipment (PPE) and hygiene solutions** tailored to the unique needs of healthcare providers and other businesses. As trusted partners to numerous establishments in the Hospitality Industry, we specialize in resolving hygiene challenges with innovative, reliable, and efficient solutions. Our success lies in sourcing premium-quality items that strike the perfect balance between comfort, functionality, and competitive pricing.

## DIGITAL THERMOMETERS FOR YOUR KITCHEN

Many home cooks or chefs tend to use color, firmness, clear juices or food shrinkage as a sign of doneness but these are not considered as accurate indicators. Looking for visual signs of doneness may make the food overcooked and dry. That's where our **Digital Food Safety Kitchen Thermometers** can assist you! The thermometers are well designed and constructed to assure that your food has reached a 'safe temperature' and is not overcooked! Some of our products include Digital Pocket Thermometers, Pen Type Thermometers, Infrared Thermometers, Thermometer Probes, Oven Thermometers, Fryer Thermometers, Oil Testers and more.

# INTELLIGENT KITCHEN LABELLING WITH AD OPS

**AD Ops Mobile App Solution** can help cut labor and reduce food costs by effortlessly streamlining back-of-house tasks. It is a cloud-based restaurant supply chain solution, that has a simple, intuitive user interface and strong focus on food safety allowing users to manage their restaurants more efficiently than ever. No more handwritten labels necessary. Create prep labels, nutrition labels, grab-and-go labels, and everything in between. You can use the AD Ops simple drag-and-drop label designer to customize a label, or you can choose from our library of existing templates.

9442 AD GO OPS LABEL PRINTER

### Eliminate Handwritten Labels

Create and print everything from prep labels, to nutrition, grab-n-go, ingredient, and any custom label you need.

### Organize your to-do's

Eliminate paper checklists and go digital! Streamline recurring tasks, provide corrective actions, and track completion in real time.

### Prep Intelligently

By using both inventory and sales data to suggest how much to prep each day, the app significantly reduces under and over-prepping.

### Train Smarter

Documents, training materials, and procedures are now digital, always up-to-date, and at your team's fingertips right when they need them.

# ALL YOUR FOOD LABELLING NEEDS COVERED IN ONE GO!

Food safety is a vital aspect of any food service establishment’s operations. All food service establishments are required to label prepped food for the safety of the customer and to protect the best interest of the establishment itself. This is where our **Food Safety Day Labels** can help you! Our simple, color-coded “Day Labels” are pre-printed with Item Name, Prep Date, Prep Time, Day of the Week, Use by Date, Handling Instructions and all other information needed to ensure the highest measure of food safety.
