

# KEG SYL

the smart difference

by **ecocap's**

A NEW **ALUMINUM FOIL TECHNOLOGY**, ENSURING A **SAFE, HYGIENIC AND SUSTAINABLE SEAL** OF **KEGS**, LESS RAW MATERIAL, LOWER TRANSPORT COST AND MINIMAL ENVIROMENTAL IMPACT.

## A BETTER SOLUTION COMPARED TO PLASTIC CAPS:

1. Lower production cost of Kegs filling lines.

2. Lower raw material cost.

3. Lower transportation and storage costs.

4. Printable seal for customization.

5. Keg recognizable from above.

# KEGSYL

the green difference

**KEGSYL** is a system for **sealing Kegs with aluminum foil** to replace plastic caps. **KEGSYL** works for all sizes and types of kegs.

It is based on a patented machine that cuts a seal from **an aluminum reel** and then heat-seals it to the neck of the Kegs.

## KEY VALUES

**1.**

### **COST SAVINGS**

Raw material, transport, and storage.

**2.**

### **SUSTAINABILITY**

100% recyclable aluminum.

**3.**

### **EFFICIENCY**

Simple, flexible, and recyclable.

**4.**

### **SAFETY**

Total protection:  
perfect when closed  
and tamper-evident.

**5.**

### **CUSTOMIZABLE**

Easily printable: before  
and after application.
