- Branding
- Minimum size maximum skills

A pack for every kind of product!

Our innovative solutions are able to meet the needs of any product packaging process in the following markets: meat, fish, poultry, dairy, ready meals, snacks, fresh pasta

SECURITY AND FLEXIBILITY

The unique, patented, continuous sealing flange ensures seal integrity equal to traditional plastic trays

No mould changes required on existing plastic trays equipment

SUSTAINABILITY

PaperSeal® trays use up to 90% less plastic than traditional trays

Easy separation of film liner from the paperboard after use, promoting recycling

The Italian Aticelca evaluation system has assigned a "B" degree of recyclability, allowing to dispose the tray in the paper bin

FULL CUSTOMIZATION

Both the inside and outside of the tray can be fully customized in offset printing up to 5 colours

PaperSeal Shape®

is a patented paperboard food tray designed for round, deep and multi-compartment applications

PaperSeal Shape®

is ideal for fresh prepared fruit and salads, dips and chilled ready-to-eat meals where a modified atmosphere is required to maintain shelf life

PaperSeal Shape®

reduces plastic by 80 – 90 percent

On request, all our trays can be suitable for heat treatment only mw or dual ovenable (mw and traditional oven)
