

UNIQUE
AND
INNOVATIVE
PAPER TOP
SKIN WEB

- FULL PRINTING POSSIBILITIES TO ENHANCE BRANDING AND COMMUNICATION
- EASY SLICE SEPARATION AND NO CUSTOMER FRUSTRATION
- LESS COMPLEX PACKAGING OPERATIONS, INCREASING PRODUCTIVITY AND EFFICIENCY

PAPER2SKIN

PAPER LAMINATED WITH
THIN SKIN PLASTIC WEB

FULLY PRINTABLE

Innovative material with less packaging elements and fully printable. The paperboard is produced from renewable fiber sourced from sustainably-managed forests.

EASY SLICE SEPARATION

Easy slice separation and no customer frustration.

EASY OPENING PACK

SHAPED WINDOW

Laser cutting of paper allows to create several window shapes.

LESS LABOUR

No labour actions/people for clustering.

FAST PACKAGING

You can perfectly pack your product and 'wear' it in one shot.
