

Plumcake

paper baking moulds

ecopack 
engineered to contain

Ecopack paper moulds: engineered to contain plumcake!

Ecopack plumcakes are manufactured with high precision automatic lines, guaranteeing a minimum size tolerance and making the moulds suitable for industrial automatic denesters.

Not only: available in different sizes, our plumcake moulds are made with greaseproof paper for better product lifting and ovenable (up to 220°C), making them suitable for both sweet and savoury preparations.

Four of them are also available in our Professional Line: handy sleeves of **50 pieces** allow the distributor to serve its customers without further inventory adjustments.

Labels applied on each heat-shrinking package showing the following information: pieces per sleeve product name and size, instructions, multilingual description.

Plumcake baking paper moulds
