

ENERGY EFFICIENT POWDER PLANT

We provide process solutions like feed treatment, evaporation, spray drying, powder conveying and packing for a wide variety of powder producing products. These plants are setup for wide range of application including dairy, food and beverage, and chemicals.

- Skim & Whole Milk Powder
- Dairy Whitener
- Non Dairy Creamer
- Whey Powder
- Lactose Powder

- Pea / Soya Protein
- Coffee & Tea
- Fructo-Oligo Saccharides
- Inulin
- Chicory

ABOUT US

Schneller Engineering Private Limited is based in Vadodara, Gujarat, India which is an industrial and a well connected city. We are a professionally managed Process Engineering company having highly qualified professionals and industry experts with 30 years of experience in process industry.

Schneller offer Turnkey Solution for the applications in Dairy, Food & Beverage industry, based on technology tie up with various companies from Europe & Asia-Pacific.

WHAT WE OFFER

We offer a complete range of liquid and powder processing solutions for dairy, food, and beverage application.

DAIRY

- **Milk and Whey:** Milk and whey processing, cream processing, heat treatment, recombined milk, mix processing.
- **Milk products:** Pasteurized milk, Butter, Ghee, UHT Milk, Paneer, Cheese, Ice cream, Whey protein concentrate, yoghurt, caseinate, flavored milk.
- **Drying:** Skim / whole milk powder, sweetened condensed milk, dairy whitener, nutritional powders.

FOOD

- Oils, Starch, Ingredients, Pea proteins, Soya Protein, Lactoferrin, Lactose.

BEVERAGE

- Juice processing, sugar dissolving, and ready to drink.

AUTOMATION & CONTROL SYSTEM

- Process Automation, Instrumentation, and electrical systems for all applications.

TECHNOLOGIES AND PROCESSES

- **Heat treatment:** Pasteurization (Low, high heat and 'UHT')
- **Filtration:** Micro-, Ultra-, Nano filtration & Reverse Osmosis
- Fermentation
- Evaporation & Crystallization
- Spray Drying
- Powder handling and Powder packing
- Freeze drying

COMPLETE SOLUTION OF LIQUID MILK PROCESSING PLANT

Our pasteurization process solution ensures high level of Safety, Hygiene and Process Control. Achieving Maximum Efficiency of Fermented product ranges by Continuous batching and maintaining hygienic processing conditions.

At Schneller we also offer complete **Turnkey Solutions** for **Ice-cream Plant**.

VEGETABLE PROTEIN ISOLATES

The alternative protein market from plants is diversifying and growing quickly, given massive consumer and industrial demand. The plant protein content is around 20 - 30% percent, and the rest is fibres, Starch, oil etc.

- Pea Protein
- Soya Protein
- Starch
- Sugar based Products
- Fruits & Vegetables

EXPERTISE

Liquid Milk Process Plants, Yoghurt, **Curd**, Butter, **Ghee**, Cheese, **Whey**, Protein, **Power**, Ice-Cream, **Automation Systems**
