SIDE PRESS

- With Adjustable Pressure
- Also Stationary version
- Safe product handling

Side Press is an electric-powered mobile pallet changer that securely locks and lifts the product from the pallet.

The machines is equipped with two padded clamps that secure the product from the side, and simultaneously lift it off the pallet.

Available both mobile and fixed version.

Pallet size Up to 1000x1200 mm
(opened pallet)

Capacity Up to 1200 Kg

Performance About 40 pallets/hour

Lifting range from to the floor up to the lowerside of the lateral plates Up to 300 mm

**depending on configuration*

SIDE PRESS SPLITTER

TOPPY | 7

- Split the stack of products;
- With Adjustable Pressure
- Safe product handling.

Side Press Splitter is a portable layer picker capable of both splitting product-stacks up to 1.400 mm and exchanging pallets.

The machines is equipped with two padded clamps that secure the product from the side, and simultaneously lift it off the pallet.

Available both mobile and fixed version.

Pallet size	Up to 1200x1200 mm (opened or bottom closed pallet)
--------------------	--

Capacity	Up to 1200 Kg
-----------------	---------------

Performance	About 30 pallets/hour
--------------------	-----------------------

Lifting range from to the floor up to the lowside of the lateral plates	Up to 1400 mm
--	---------------

**depending on configuration*

FALCON WINGS

TOPPY | 8

- With Adjustable Pressure
- Also Stationary version
- Safe product handling

PATENTED

Falcon Wings is an electric-powered mobile pallet changer machine that securely locks and lifts the product from the pallet.

It uses extendable blades for stability between the product and the pallet. It's very easy to operate with joystick control and runs on a acid lead battery.

Available both mobile and fixed version.

Pallet size	Up to 1000x1200 mm (opened pallet)
--------------------	---------------------------------------

Capacity	Up to 1200 Kg
-----------------	---------------

Performance	About 30 pallets/hour
--------------------	-----------------------

Lifting range from the floor up to the lowside of the lateral plates	Up to 240 mm
---	--------------

**depending on configuration*

FALCON WINGS SPLITTER

-  Safe product handling
-  With Adjustable Pressure
-  Split the stack of products.

PATENTED

Falcon Wings Splitter is a portable layer picker capable of both splitting product-stacks up to 1.300 mm and exchanging pallets.

It uses extendable blades for stability between the product and the pallet. It's very easy to operate with joystick control and runs on a acid lead battery.

Available both mobile and fixed version.

Pallet size Up to 1000x1200 mm

Capacity Up to 1200 Kg

Performance About 30 pallets/hour

Lifting range from to the floor up to the lowside of the lateral plates Up to 1300 mm

**depending on configuration*

TOPPY PHARMA ADVANCE

TOPPY | 10

- For miscellaneous loads
- +5.000 sold worldwide
- Safe product handling

Toppo Ph Adv is electric-powered portable pallet inverter designed to exchange pallets for miscellaneous loads.

Its control panel is user-friendly, and its portability makes it ideal for small and confined warehouses without dedicated pallet-changing areas.

Originally designed from scratch in 1995 by the CEO of Toppo Group, it has been tested and improved over the years.

Pallet size	Up to 1000x1200 mm (opened pallet)
Capacity	Up to 1000 Kg
Performance	About 20 pallets/hour with single rotation

**depending on configuration*

MAXI TOPPY PHARMA ADVANCE

TOPPY | 11

-  For miscellaneous loads
-  +5.000 sold worldwide
-  Safe product handling

Maxi Topy Ph Adv is electric-powered portable pallet inverter designed to exchange pallets for miscellaneous loads.

Its control panel is user-friendly, and its portability makes it ideal for small and confined warehouses without dedicated pallet-changing areas.

Designed in 1995 by the CEO of Topy Group, it has been tested and improved over the years.

Pallet size	Up to 1000x1200 mm (opened pallet)
--------------------	---------------------------------------

Capacity	Up to 1500 Kg
-----------------	---------------

Performance	About 20 pallets/hour with single rotation
--------------------	---

**depending on configuration*

MAXI TOPPY DUAL PRESS

TOPPY | 12

- Safe product handling
- For miscellaneous loads
- 2 Dual Mode: tilting and no tilting

Maxi Topy Ph Dual Press is the evolution of mobile pallet inverters due to its capability of exchanging pallets with two method:

1. By tilting the load at 180 degrees for bags, bottles, drums, big bags, etc;
2. By laterally pressing the load, suitable for not turnable products.

Its control panel is user-friendly, and its portability makes it ideal for small and confined warehouses.

Pallet size	Up to 1000x1200 mm (opened or bottom closed pallet)
--------------------	--

Capacity	Up to 1500 Kg
-----------------	---------------

Performance in Press Mode	About 30 pallets/hour
----------------------------------	-----------------------

Performance in Turning Mode	About 20 pallets/hour
------------------------------------	-----------------------

**depending on configuration*

SIDE MOVER

- With Adjustable Pressure
- Also Stationary version
- Safe product handling

Side Mover is an electric-powered mobile pallet changer that securely lifts and laterally shifts the load between pallets.

The machines is equipped with two padded clamps that secure the product from the side, and simultaneously lift it off the pallet.

Available both mobile and fixed version.

Pallet size Up to 1000x1200 mm

Capacity Up to 1200 Kg

Performance About 40 pallets/hour

Pallet Transfer Side Shifting

**depending on configuration*

Corporate Reliability & new sustainable practices

CRIBIS Prime Company

The CRIBIS Prime Company recognition is therefore the highest level of assessment of the commercial reliability of an organization and is issued only and exclusively to companies that constantly maintain high economic-commercial reliability and are virtuous in payments to suppliers.

The CRIBIS Prime Company is a recognition of great value given that every year it is awarded only to 7% of the over 6 million Italian companies.

A Transformative Journey as a B-CORP Company

As a BENEFIT company, Topy embraces a holistic approach that transcends profit-focused objectives.

We believe that by embracing sustainable practices, prioritizing employee well-being, cultivating ethical supplier relationships, and actively contributing to the community, we can shape a brighter future for all.

Through our manifest G.R.O.W. (Green Responsibility for Our World), Topy cultivates a culture of environmental stewardship, empowering positive change for a sustainable future.
