# Areas of experience

- **TYPE OF PRODUCTION:** We are experts in the production of stainless steel tanks and specialized in the construction of complete turn-key systems including piping, pumps, valves, electrical panels, software etc.
- **ON-SITE CONSTRUCTIONS:** We are organized for on-site constructions which are sometimes indispensable when the dimensions of the tanks are significant; we have our vehicles for the transport of semi-finished materials, and cranes for lifting and positioning the tanks. Always on site we are able to build complete turn-key systems.
- **PROCUREMENT OF CONSTRUCTION MATERIALS:** We produce quality tanks and service pipe lines and to do this we procure high quality materials which we strictly purchase only from Italian and/or European sources. (e.g. for Steel: Marcegaglia, APERAM Belgium).
