

## Prodotti certificati e di qualità

### A clean label

Regularly our labour provide our client with our custom service, so that they can replace the food supplements in their products with natural supplements which have the Same technological functions.

### 100% natural ingredients

A highly specialisation in the production of functional extracts and flavourings. For each extract we have a special protocol which goes from the very first steps until the final analysis, the quality check.

### Analytics

From the very beginning our strength layed in our passion and competences in the analytical field. Our Labs have top equipment with the newest technology and we cooperate actively with external certified labours.

### Research and application center

Inside our company and separated from our other labs, we have activated a new laboratory, which is specialized in the application of aromas and in the development of recipes and preparation processes for the food and nutraceutical industry.

### Personalized assistance

Our company offers our clients a custom service not only during the aromatisation process but also along the development and the production of the product with the possibility to visit the production site.

### A big family

*Your secret ingredient*

## VISION

## MISSION

## VALUES

**Sterling Aromi** is a leading flavoring company, founded in 1976. For over forty years, we have been committed to **innovating and producing high-quality flavors** for the food, pharmaceutical and nutraceutical industries.

Operating in Grandate, Como, the company has developed its business especially in the field of **natural aromatic preparations**, offering customers complete assistance for every phase necessary for perfecting the products. It is today continuously expanding in the Italian and international market.

**Sterling Aromi** is a **global leader in aroma innovation**, driving product transformation through **high-quality aromatic solutions** that **stimulate the senses** and **meet the ever-evolving needs of consumers**.

We are committed **to revolutionizing the consumer sensory experience** through the **creation and delivery of aromas** that transform our clients' products, guiding them towards **excellence** and enabling them to differentiate themselves in the market and earn the loyalty of their consumers.

- ✓ **Constant Innovation**
- ✓ **High Quality:** we guarantee the highest quality at every stage of production, from raw material selection to product distribution.
- ✓ **Taylor Made Solutions:** we work closely with our clients to fully understand their needs and provide customized, results-oriented solutions.
- ✓ **Integrity:** we operate with transparency, honesty, and responsibility, ensuring the highest ethical standards.
- ✓ **Passion:** with over 40 years of experience in the aroma industry, we passionately support our clients in creating excellent products.
- ✓ **Sustainability:** we are committed to constantly reducing the environmental impact of our activities, adopting sustainable practices, and promoting corporate social responsibility in all our operations.

## HIGHT QUALITY

## TAILOR MADE SOLUTION

## SUSTAINABILITY

## INNOVATION

Thanks to **our highly quality expertise** and **state-of-the-art equipment**, we **create flavoring solutions suitable for the specific needs of each customer**. We are able to follow the full development of the flavourings, from the early stages to industrial development, thanks to the versatility of our production plant, suitable for small, medium and large scale production.

The flexibility of our customized solutions allows us to create **long lasting value relationships** and **build the success with our customers**.

Our **corporate philosophy is centered around the concept of 'business sustainability'**. We are committed to protect the environment and adopting socially responsible business practices. We are committed to reduce our environmental impact through the adoption of sustainable production practices, responsible use of resources and responsible waste management. We also **promote inclusion, diversity** and active involvement in the communities where we operate, contributing to a **sustainable future for all**.

We want to promote a new industrial model that sets far-sighted goals, never forgetting how invaluable human and **natural resources are and that those resources must be protected and regenerated**.

# Your flavourings expert since 1976

**We are leaders in the food industry, constantly bringing innovation while prioritizing consumer health.** Within this domain, we provide **flavourings** to companies producing both **alcoholic and non-alcoholic beverages**. Thanks to an in-house laboratory dedicated to the ice cream sector, we successfully produce flavors and extracts for both bases and variegates, as well as **specific ingredients for gluten-free, diabetic-friendly, and low-fat and calorie ice creams**. Additionally, we produce flavors for baked goods and liquid or paste flavors for high-end pastry. We are also **among the world's leading producers of truffle flavourings**.

We have developed a **high level of expertise** in the **pharmaceutical industry**, where we collaborate with our clients to develop customized **aromatic solutions that enhance the therapeutic experience and promote better adherence to therapy**. Our flavors find specific applicability depending on the type of drug being flavored: syrups, tablets, candies, and powder preparations.

In the **nutraceutical sector**, Sterling has developed expertise that allows us to produce **special extracts from plant matrices**. Nutraceuticals represent a continuously expanding sector that combines aspects of nutrition and pharmacology to develop products that provide health benefits beyond basic nutrition. **Flavourings** play a significant role in the nutraceutical world, as they **can enhance the acceptability and sensory experience of products**.
